HINT - *Harmonized Inland Navigation Transport through education and information technology*

Project to be submitted under the 4th call launched by the SEE Programme

19 partners from 9 countries (AT, SK, RO, BG, HR, RS, SI, UA, HU)

Duration: 2 years

Main objectives:

1. Integration of Danube Region into the European harmonized education process
2. Development of training and assessment IT applications and tools
3. Creation of framework conditions for transnational cooperation
4. Development of concepts for onboard and simulator practical training
5. Promotion of IWT jobs

1. Integration of Danube Region into the European harmonized education process

Support and promote the emergence and implementation of harmonized European standards regarding the training of river personnel

Specific actions:

- Cooperation with EDINNA
- Common STCIN promotion strategy
- Impact study at national/ transnational level
- Promotion campaign (national workshops, transnational actions)

2. Development of training and assessment IT applications and tools

Development of new IT tools to support trainees in the learning process

Specific actions:

- Set up of a self-assessment platform for ADN certificate
- Development of case studies for individual or team learning activities
- Development of related multimedia materials
- Organization of national workshops with stakeholders and target groups
- Development of new learning modules within INeS Danube Platform (e.g. RIS)

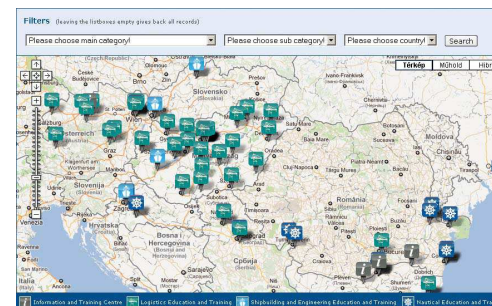

3. Creation of framework conditions for transnational cooperation

Danube Knowledge Network

Specific actions:

- Set up of a cooperation platform for all IWT involved actors (E&T providers, stakeholders etc.)
- Upload of IWT E&T materials, Danube related event calendar, relevant networks, projects and initiatives
- Identification and implementation of cooperation actions

4. Development of concepts for onboard and simulator practical training

Danube School Ship

Navigation Simulator

Ports and Logistics Simulator

Specific actions:

- Development of a Danube school ship concept (type of vessel, ownership, route, costs, financing issues)
- Development of business and technical concepts for navigation simulator and ports/ logistics simulator
- Development of a harmonized concept for onboard vs. simulator training (competences/ skills, equipments, teaching aids, pre-requisites of trainers)

5. Promote IWT jobs

Transnational IWT jobs campaign

Specific actions:

- **Transnational cooperation between existing ITCs**
- **Investigation of local available workforce and job opportunities in IWT**
- **Workshops, info days, career days, national/ European fairs**
- **Advertisements, promotion materials**

Thank you for your attention!
