

Project Data Sheet

BASIC PROJECT DATA			
Full project title:	Galati Multimodal Platforms - Stage I – Upgrading of the waterside infrastructure		
Short project title: (acronym)		Project logo:	
Project website:	https://www.romanian-ports.ro/proiecte_ext/site_PMG/pmg_en.php#	Project ID:	PA1A169
Need and added value for Danube Region Strategy:	The port of Galati infrastructure upgrade will contribute to enhance the connections between different countries such as Ukraine, Moldova and Romania allowing an increase of freight transport along the lower section of the Danube and the overall Rhine-Danube core network corridor.		
Objective(s) of project:	The general objective is to foster the use of inland waterway and maritime transport on the Rhine-Danube Corridor, by upgrading the basic port infrastructure and supporting transshipment operations in the Port of Galati.		
Planned project activities:	<p>The project "Galati Multimodal Platforms - Stage I – Upgrading of the waterside infrastructure" is the first stage of the project "Multimodal Platform Galati - removing major bottlenecks by substantially upgrading existing infrastructure and bridging missing links for the Rhine - Danube / Alpine Core Networks Corridor" and aims to upgrade the waterside infrastructure of the port of Galati - Port Bazinul Nou area, located within the port of Galati.</p> <p>Stages to achieve the general objective:</p> <ul style="list-style-type: none"> • Drawing technical design and execution details following the execution of investment object: (1) Quay / unloading area, (2) Multimodal platforms - infrastructure (platforms, roads, utility networks) and superstructure (buildings, additional areas of storage), existing and newly created equipment and port facilities, (3) road and rail connection access to multimodal platforms, (4) the access platform area; • Capital dredging works in the basin located in the "Port Bazinul Nou" area to allow safe entry of vessels; • Upgrade of the existing quay to perform direct loading and unloading operations of Intermodal Loading Units (ILUs) between vessels and the quay; • Partial filling of the port basin to create additional space for berthing and future handling operations; • Levelling of the elevation profile of the platform. 		
Transboundary impact:			
Project beneficiaries / target groups:	<p>Beneficiaries:</p> <ul style="list-style-type: none"> • CN APDM SA Galati (Project Coordinator) • Metaltrade International SRL (Project Partner) • Port Bazinul Nou SA (Project Partner) <p>Target groups:</p> <p>shipping companies, port operators, industry</p>
