## 1. General information

This practical manual on border controls along the Danube and its navigable tributaries is based on a joint effort of the Technical Secretariat of Priority Area 1a of the European Strategy for the Danube Region which is concerned with improving mobility and multimodality in relation with inland waterways and Priority Area 11 which aims at enhancing transnational cooperation to improve security and to tackle serious and organised crime.

In August 2015 the first edition of the manual was published as a reaction to comments from the shipping sector that border controls were perceived as non-transparent and cumbersome. By offering a concise and easy to read overview of control processes carried out at the control points at EU and Schengen borders in seven Danube riparian countries the authors wanted to provide comprehensive guidance for shipping companies and particular ship crews.

The practical manual was also elaborated to form a basis for harmonising controls along the whole Danube river: The Danube waterway crosses borders to European Union Member States which are part of the Schengen Area (Germany, Austria, Slovakia, Hungary, Croatia), to EU-Member States which are not yet part of the Schengen Area (Romania, Bulgaria) and to States which are no members of the EU (Serbia, Moldova, Ukraine). During our initial research in 2015, we came across more than 50 border control documents to be filled out in the Danube riparian states. One important step was therefore the development and introduction of unified control forms along the Danube: the Danube Navigation Standard Forms (DAVID Forms). These forms represent a harmonised version of three often used border control forms (Arrival and Departure Report, Crew List, Passenger List).

In April 2017 a second edition of the manual was published including additional details focusing on Croatia, Serbia and Bulgaria.

Since then we carried out intensive research to fill data gaps – both in terms of geographical coverage as well as regarding the technical content. Due to these efforts the third edition, published in May 2019, included additional details on border control procedures in the Ukraine.

The current 4<sup>th</sup> edition of the manual is of special interest:

Thanks to the efforts of the working group, the harmonized DAVID forms gradually replaced corresponding national forms at all checkpoints at and outside the Schengen external borders in Hungary, Croatia, Serbia, Romania, Bulgaria, the Republic of Moldova and Ukraine since February 2020 to May 2022. The current edition therefore has correspondingly included the DAVID forms in each country-chapter.

In addition, the 4<sup>th</sup> edition pays attention to the fact that Croatia has joined the Schengen area on 01.01.2023, and some new regulations were imposed by the Serbian government in 2022, which are included in Chapter 7.

Finally, four new border control points were put into service: Bačka Palanka, Ram and Golubac in Serbia and Orlivka in Ukraine.

All information included in this publication was provided by border control authorities throughout the Danube region. viadonau collected and edited the inputs to present the information and data in a reader-friendly way.

The manual in the usual manner contains general information on the registration process for border controls, control modalities including steps to be followed by captains and crew members as well as the forms to be filled in each country. Furthermore, locations of control points, contact details and opening hours of all involved control authorities are listed.

The figure displays three rectangular forms arranged vertically. The top form is titled 'Danube Navigation Standard Form DAVID' and 'ARRIVAL AND DEPARTURE REPORT'. It contains sections for 'Arrival', 'Departure', and 'Other'. The middle form is titled 'Danube Navigation Standard Form DAVID' and 'CREW LIST'. The bottom form is titled 'Danube Navigation Standard Form DAVID' and 'PASSENGER LIST'.

**Figure 1: DAVID forms**

Given the fact that Danube navigation is faced with fierce competition and considerable administrative effort, the reduction of additional costs caused by unpredictable and long-winded border controls can be a major contribution to support a modal shift towards inland waterways. This is why Priority Area 1a of the European Strategy for the Danube Region will keep working towards an improvement of border controls in the future. Please check out our website for information on further implemented measures: <https://navigation.danube-region.eu/working-groups/wg-6-administrative-processes/>

## 2. How to use this manual?

This manual is structured in the riparian states of the Danube River and follows their geographical order downstream.

Firstly, each country-chapter (Chapters 5 to 11) contains general information on border controls applied in the respective state. This includes information on the control process such as an overall overview and steps to be followed by the captain and the ship crew. Furthermore, each country chapter includes applicable drafts of control forms. Thanks to the harmonisation efforts of border control forms on international level, the DAVID forms are an integral part of this manual (see more information in Chapter 3). Additional information on border controls is presented in the country-chapters if provided by the control authorities.

Secondly, you can find information on specific control points in each country which determines the exact location, address and mean duration of checks. Furthermore, this section includes the involved control authorities with the contact data and opening hours. A map with the places of checks and additional information on the process provide supplementary practical material.

## 3. DAVID forms

The Working Group on “Administrative Processes” started in 2013 and is since then fully dedicated to facilitate and improve control processes, especially in the field of border controls.

By comparing the control procedures in the Danube region, it has become evident that harmonisation is important to decrease variations in control procedures along the Danube. With the aim to tackle this issue, the joint Working Group of PA1a (Inland Waterways) and PA11 (Security) developed a set of so-called Danube Navigation Standard Forms (DAVID). Using the expertise of stakeholders from the shipping sector and control authorities, the data fields of three often used forms (arrival and departure forms, crew lists and passenger lists) were harmonised in an international effort.

In 2018, the Working Group reached an agreement on the final set of so-called Danube Navigation Standard Forms (DAVID):

- DAVID Arrival & Departure Report
- DAVID Crew List
- DAVID Passenger List

The DAVID forms gradually replaced respective national forms required during controls at Schengen external borders, which was a national responsibility and involved administrative adjustments on a national level.

The introduction of the DAVID forms in all countries at and outside Schengen external borders is completed.

Hungary, Croatia, Serbia, Bulgaria and Ukraine introduced the DAVID forms in 2020. Romania and the Republic of Moldova followed in 2022. The forms are available for download on the websites of the respective Ministries, accessible under the respective country chapter. For improved user-friendliness, the data fields of the DAVID forms were provided in a bi-lingual manner: in national language and in English. Please find the respective DAVID form translation in each country-chapter accordingly.

## 4. Geographic scope

This manual covers a total number of 49 control points in 7 riparian countries of the Danube River. It sets a particular focus on the controls at the EU's external border and provides practical information regarding the processes applied for the control of crews, passengers and cargo.

Country	City	River-km
<b>Hungary</b>	Mohács	1,449.00
<b>Croatia</b>	Batina – Beli Manastir	1,425.00
	Osijek	13.00 ( <i>Drava River</i> )
	Aljmaš	1,380.00 – 1,380.20
	Vukovar	1,335.00
	Ilok	1,298.60, 1,297.00
<b>Serbia</b>	Bezdan	1,425.00
	Apatin	1,401.50
	Bačka Palanka	1,295.00
	Novi Sad	1,255.00
	Belgrade	1,168.00
	Ram	1,077.00
	Veliko Gradište	1,059.00
	Golubac	1,044.00
	Donji Milanovac	990.00
	Kladovo	933.00
	Prahovo	859.00
<b>Romania</b>	Moldova Veche	1,049.10 – 1,047.00
	Orşova	954.70 – 953.50
	Drobeta Turnu Severin	932.70 – 931.70, 930.00 – 929.00
	Calafat	794.80 – 793.80
	Bechet	679.20 – 678.40

<b>Country</b>	<b>City</b>	<b>River-km</b>
	Corabia	630.00 – 627.60
	Turnu Măgurele	603.00 – 602.00, 598.00 – 596.00, 592.00 – 591.00, 580.00 – 579.30
	Zimnicea	559.00 – 558.00, 553.9 – 550.00, 547.00 – 546.00
	Giurgiu	496.80 – 491.00
	Oltenița	429.00
	Călărași Chiciu	100.00 – 99.00, 99.00 – 91.00
	Cernavodă	229.00 – 297.40
	Brăila	170.90 – 168.30
	Galați	157.50 – 155.20, 151.00 – 148.90
	Tulcea	71.30
	Sulina	0.00
	Constanța	Black Sea Port
	Constanța Sud	Black Sea Port
<b>Bulgaria</b>	Vidin	795.00 – 781.50
	Lom	747.50 – 736.80
	Oryahovo	681.00 – 677.40
	Somovit	608.70 – 605.90
	Nikopol	599.00 – 595.00
	Svishtov	559.00 – 553.00
	Ruse	505.00 – 480.00
	Tutrakan	434.70 – 430.00
	Silistra	383.00 – 374.10
<b>Moldova</b>	Giurgiulești	133.80
<b>Ukraine</b>	Reni	66.70 to 69.30 ( <i>in miles</i> )
	Orlivka	57.9 to 55.1 ( <i>in miles</i> )
	Izmail	84.60 - 85.60, 90.00 – 91.00, 92.00 to 94.00
	Ust-Dunaysk	47.00 (Kilia), 18.00 (Vilkovo)

## 5. Hungary

### 5.1. General information on border controls

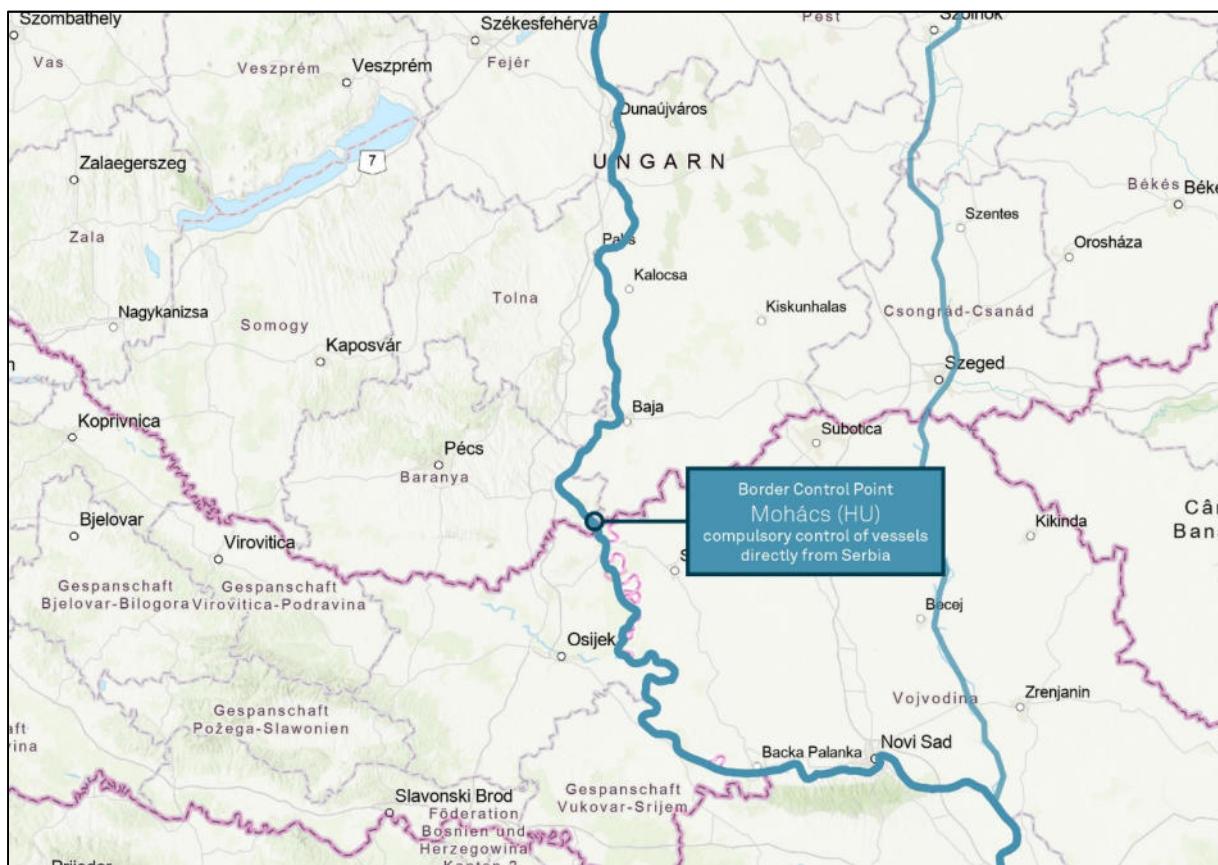

Figure 2: Overview of control points in Hungary; base map: ©Esri, adapted by viadonau

### 5.1.1 Control process

<b>Step 1</b>	Vessel traffic on the border section is monitored via RIS and port radar system.
<b>Step 2</b>	Establishing contact via radio communication.
<b>Step 3</b>	Dispatcher allots the ship to the control spot by the approval of the Border Police.
<b>Step 4</b>	Service boat picks up the Captain or his/her representative.
<b>Step 5</b>	Captain or his/her representative receives a movement document at the reception in order to collect the signatures by the different authorities (see chapter control forms).
<b>Step 6</b>	Captain or his/her representative visits the offices of the Border Police, Tax and Customs Control, Water Police, Health Control and Disaster Management Control. Requested documents (passports, crew list, etc.) are handed in and forms filled out (see chapter control forms).
<b>Step 7</b>	A mixed team representing all the relevant authorities accompanies the Captain or his/her representative back to its ship.
<b>Step 8</b>	On-board check is being conducted: <ul style="list-style-type: none"><li>- Border Police: passports of crew and passengers (with mobile document readers)</li><li>- Water Police: boat masters certificate, technical ship certificate, alcohol check, AIS transponder, service book entry</li><li>- Tax and Customs Control: Gasoil declaration, Inspection of tanks, etc.</li></ul> Disaster Control: check list of 100 points (see chapter 5.1.2, form 5) – ADN handbook, ADN certificate, expert qualification, fire extinguishers, safety equipment, etc.; checklist is signed by all parties, a certificate about the control or a copy (in case of any deficiency) stays with the captain
<b>Step 9</b>	If relevant, fines are issued and will be sent by mail.

## Egészséggel kapcsolatos kérdések/ Вопросы, касающиеся здоровья/ Health questions/ Fragen über die Gesundheit

- (1) Meghalt-e el valaki a fedélzeten az utazás során balesetől eltérő okból? /Умер ли кто-нибудь на борту во время международного рейса по каким-нибудь причинам, кроме несчастного случая?/ Has any person died on board during the voyage otherwise than as a result of accident?/ Ist während der Reise eine Person an Bord aus einer anderen Ursache als infolge Unfalls gestorben? igen /да/ yes /Ja ..... nem /нет/ no /Nein ..... Ha igen, a részleteket közölje a mellékelt táblázatban! /Если да, укажите подробные данные в прилагаемом дополнении! /If yes, state particulars in attached schedule /Wenn ja, sind nähere Angaben im Anhang zu machen.
- (2) Van-e vagy volt-e a fedélzeten a nemzetközi utazás során olyan betegség, amely az Ön gyanúja szerint fertőző jellegű? /Имеется ли на борту или имелось во время международной поездки случай заболевания с подозрением на инфекцию необычного характера?/ Is there on board or has there been during the international voyage any case of disease which you suspect to be of an infectious nature? /Gibt es oder gab es während der internationalen Reise einen Krankheitsfall an Bord, bei dem der Verdacht besteht, dass er ansteckend sein könnte? Igen/ да /Yes /Ja ..... nem /нет /No/Nein ..... Ha igen, a részleteket közölje a mellékelt táblázatban! /Если да, укажите подробные данные в прилагаемом дополнении! /If yes, state particulars in attached schedule. / Wenn ja, sind nähere Angaben im Anhang zu machen.
- (3) Az utazás során meghaladta-e a beteg utasok száma a szokásos/várható mértéket? /Было ли общее число больных пассажиров в течение поездки больше обычного/ожидаемого?/ Has the total number of ill passengers during the voyage been greater than normal/expected? / Ist die Gesamtzahl erkrankter Fahrgäste an Bord grösser als üblich/erwartet? igen /да/ yes /Ja ..... nem /нет /No /Nein ..... Hány beteg volt? /Сколько больных?/ How many ill persons? / Um wie viele Erkrankte handelt es sich? / Is there any ill person on board now? // Befindet sich gegenwärtig eine kranke Person an Bord? igen /да/ yes /Ja ..... nem /нет /No /Nein ..... Ha igen, a részleteket közölje a mellékelt táblázatban! /Если да, укажите подробные данные в прилагаемом дополнении! /If yes, state particulars in attached schedule / Wenn ja, sind nähere Angaben im Anhang zu machen.
- (4) Van-e jelenleg beteg személy a fedélzeten? /Находится ли в настоящее время на борту больное лицо? / Is there any ill person on board now? // Befindet sich gegenwärtig eine kranke Person an Bord? igen /да/ yes /Ja ..... nem /нет /No /Nein ..... Ha igen, a részleteket közölje a mellékelt táblázatban! /Если да, укажите подробные данные в прилагаемом дополнении! /If yes, state particulars in attached schedule / Wenn ja, sind nähere Angaben im Anhang zu machen.
- (5) Orvos tanácsát kértek-e? / Была ли проведена консультация с врачом? / Was a medical practitioner consulted? / Wurde ein Arzt konsultiert? igen /да/ yes /Ja ..... nem /нет /No /Nein ..... Ha igen, a kezeléstre vagy az orvosi véleményre vonatkozó információkat közölje a mellékelt táblázatban! / Если да, укажите подробные данные медицинского лечения или рекомендации в прилагаемом дополнении! / If yes, state particulars of medical treatment or advice provided in attached schedule / Wenn ja, sind nähere Angaben zur Behandlung oder zum ärztlichen Rat im Anhang zu machen.
- (6) Van-e tudomása bármilyen korúlmányról a fedélzeten, amely fertőzéshez vagy betegség terjedéséhez vezethet? /Известны ли вам какие-либо обстоятельства на борту, которые могут привести к заражению или распространению болезни?/ Are you aware of any condition on board which may lead to infection or spread of disease? / Sind Ihnen Umstände an Bord bekannt, die zu einer Ansteckung oder zur Ausbreitung von Krankheiten führen könnten? igen /да/ yes /Ja ..... nem /нет /No /Nein ..... Ha igen, a részleteket közölje a melléklet táblázatban! /Если да, укажите подробные данные в прилагаемом дополнении! /If yes, state particulars in attached schedule / Wenn ja, sind nähere Angaben im Anhang zu machen.
- (7) Alkalmaztak-e a fedélzeten közigazságügyi intézkedéseket (pl. karantén, elkulonítás, fertőlenítés vagy dekontaminálás)? /Были ли проведены на борту какие-либо медико-санитарные меры (например, карантин, изоляция, дезинфекция или деконтаминация)? / Has any sanitary measure (e.g. quarantine, isolation, disinfection or decontamination) been applied on board? / Wurden an Bord Gesundheitsmassnahmen (z. B. Quarantäne, Absonderung, Desinfektion oder Entseuchung) angewandt? igen /да/ yes /Ja ..... nem /нет /No /Nein ..... Ha igen, pontosan jelölje meg az intézkedés típusát, helyét és dátumát! /Если да, укажите тип, место и дату / If yes, specify type, place and date / Wenn ja, Art, Ort und Datum angeben! .....
- (8) Találtak-e polyatlast a fedélzeten? /Были ли обнаружены на борту какие-либо безбилетные пассажиры? / Have any stowaways been found on board? / Wurden an Bord blonde Passagiere entdeckt? / igen /да/ yes /Ja ..... nem /нет /No /Nein ..... Ha igen, hol szálltak fel a hajón (ha ismert)? /Если да, укажите, когда они поднялись на судно (если известно)? / If yes, where did they join the ship (if known)? / Wenn ja, wo gingen sie an Bord (falls bekannt)? .....
- (9) Van-e beteg állat vagy kedvivelből tartott állat a fedélzeten? /Есть ли на борту какое-либо больное животное?/ Is there a sick animal or pet on board? / Befinden sich kranke Tiere oder Haustiere an Bord? igen /да/ yes /Ja ..... nem /нет /No /Nein .....
- Megjegyzés:** Ha nincs bajörvös, a kapitány az alábbi tünetek jelentkezésével gyanakodik fertőzöt betegségre:  
 (a) több napra fenntartott lázás állapot, amelyhez (i) általános gyengeség, (ii) romlott tudatállapot; (iii) nyirokcsomó-duzzanat, (iv) sárgaszín, (v) köhögés vagy légzőszűkület; (vi) szokatlan vörzés; vagy (vii) parálisztikus tárás!  
 (b) lázalatt vagy sebkül: (i) bármilyen heveny bőrkálat; (ii) erős hányás (a tengerbetegség kivételével); (iii) súlyos hasmenés; vagy (iv) ismétlődő görcsök.
- Примечание:** В случае отсутствия врача капитан должен руководствоваться следующими симптомами в качестве основания для подозрения на заболевание инфекционного характера
- (a) лихорадка, длительная несколько дней или сопровождающаяся (i) невозможном; (ii) поутрующим сознанием;  
 (iii) спукотомию желчи; (iv) желтухой, (v) кашлем или одышкой; (vi) необычным кровотечением или  
 (vii) парализмом.  
 (b) с лихорадкой или без нее: (i) сильная сыпь на коже или нарывы; (ii) сильная рвота (кроме морской болезни);  
 (iii) сильная диарея; или (iv) повторяющиеся судороги.
- Note. In the absence of a surgeon, the master should regard the following symptoms as grounds for suspecting the existence of a disease of infectious nature:  
 (a) fever, persisting for several days or accompanied by (i) prostration; (ii) decreased consciousness; (iii) glandular swelling;  
 (iv) jaundice, (v) cough or shortness of breath; (vi) unusual bleeding, or (vii) paralysis.  
 (b) with or without fever: (i) any acute skin rash or eruption; (ii) severe vomiting (other than sea sickness); (iii) severe diarrhoea; or (iv) recurrent convulsions.
- Anmerkung:** Befindet sich kein Arzt an Bord, so soll der Kapitän die folgenden Symptome als Verdachtmomente für das Vorhandensein einer ansteckenden Krankheit ansiehen:  
 a) Fieber von mehrjähriger Dauer oder begleitet von:  
 i) Ermüdung, ii) herabgesetztem Bewusstsein, iii) Drüsenschwellung, iv) Gelbsucht, v) Husten oder Kurzatmigkeit, vi) ungewöhnlichen Blutungen, oder vii) Lahmungsscheinungen;  
 b) mit oder ohne Fieber:  
 i) jede akute Flautreizung oder jeden Hautausschlag, ii) schweres Erbrechen (außer bei Seekrankheit), iii) schwere Diarrhöe, oder iv) wiederkehrende Krämpfe.

Alulirott kijelentem, hogy a jelen Egészséggel kapcsolatos nyilatkozatban (a mellékelt táblázatot is beleértve) közölt adatok és válaszok legjobb tudásom szerint a valóságnak megfelelnek és pontosak. /Настоящим подтверждаю, что подробные сведения и ответы на вопросы, которые приведены в этой Медико-санитарной декларации (в том числе в дополнении), правильно и точно отражают данные, которыми я располагаю! / I hereby declare that the particulars and answers to the questions given in this Declaration of Health (including the schedule) are true and correct to the best of my knowledge and belief. / Hiermit erkläre ich, dass die in dieser Gesundheitserklärung (einschliesslich des Anhangs) enthaltenen Angaben und Antworten nach bestem Wissen und Gewissen richtig und der Wahrheit entsprechend gemacht worden sind.

### 5.1.3 Additional information

Controls of passenger vessels currently already include the obligatory usage of a harmonised electronic passenger list (PAXLST) which is electronically submitted to the control authorities via the PannonRIS system prior to the arrival at the control point.

Source: Presentation of Gergely Mező, Project Manager at RSOE (Hungarian RIS Provider)

According to the Hungarian Ministry of Interior ships use DAVID Forms since January, 2020.

## 5.2. Information on specific border control points

### 5.2.1 Mohács

**Location on the Danube/River-km:** 1,449.00

**Postal address:** Border Crossing Point Mohács, Mohács, Budapesti út 14/B, H-7700

**Characteristics:** Joint controls carried out by all relevant authorities in the border port or at designated spots in the river on those ships that enter from Serbia.

**Mean duration of checks (including waiting time):** 90 minutes

**Involved control authorities:**

Involved control authorities	Contact data	Opening hours
Border Policing Division of the Mohács Police Office (in short: Border Police)	Phone: +36 69511370 E-Mail: <a href="mailto:hatrendo.mohacsrk@baranya.police.hu">hatrendo.mohacsrk@baranya.police.hu</a>	00.00 – 24.00 all week
National Tax and Customs, Border Customs Office (in short: Tax and Customs Control)	Phone: +36 69511130 E-Mail: <a href="mailto:mohacs_hk@nav.gov.hu">mohacs_hk@nav.gov.hu</a>	00.00 – 24.00 all week

Public Health's Service of the Government Office of Baranya County (in short: Health Control)	Phone: +36 669505585 E-Mail: <a href="mailto:titkarsag.mohacs@ddr.antsz.hu">titkarsag.mohacs@ddr.antsz.hu</a>	08.00 – 20.00 on weekdays
Disaster Management (in case of dangerous goods transport)	Phone: +36 72514860 E-Mail: <a href="mailto:okf.kommunikacio@katved.gov.hu">okf.kommunikacio@katved.gov.hu</a> <a href="mailto:baranya.titkarsaq@katved.gov.hu">baranya.titkarsaq@katved.gov.hu</a> <a href="mailto:baranya.ugyelet@katved.gov.hu">baranya.ugyelet@katved.gov.hu</a>	00.00 – 24.00 all week
Food Chain Safety and Animal Health Directorate of the Government Office of Baranya County (in short: Phytosanitary Control)	Phone: +36 669510290 E-Mail: <a href="mailto:mohacs-ebai@nebih.gov.hu">mohacs-ebai@nebih.gov.hu</a>	08.00 – 20.00 on weekdays

## Place of checks:

## Additional information:

**Schengen border checks:** After 1<sup>st</sup> of January 2023, vessels arriving in Hungary directly from the Danube section of Serbia or entering Serbia directly from Hungary will be subject to Schengen border checks in Mohács. Those vessels that have already entered the territory of the Schengen Member States in Croatia or are entering Hungary from the Schengen Member State Croatia will be allowed to pass through the port of Mohács without any border control, on the basis of a prior notification.

**Complex Border inspections:** Mohács is the only border crossing point (BCP) along the Danube, where all the concerned authorities are placed in one building and are conducting joint on-board checks in mixed teams approximately 10 kilometres upstream of the trilateral HU-HR-RS state border, which is Schengen external border.

**Duration and place of checks:** An average border inspection takes about 1.5 hours; the duration might increase during high season. Passenger ships and cargo ships transporting dangerous goods, live animals or perishables have priority before other cargo ships. There are the landing sites/pontoons next to the Control Centre (for smaller ships passenger cruisers), vertical embankment for tugboats and designated spots in the river available for large vessels (convoys with barges). The place for controls under the ADN regulation lies outside the city, in a travel time of approx. 25 minutes by service boat.

**Bilateral information exchange with Croatia:** A Croatian-Hungarian Common Contact Office for real-time information exchange and daily cooperation is operational. The Liaison Officers exchange information using their national databases, also concerning requests without relation to the Danube Waterway.

**Performed checks and involved authorities:** The required checks depend on the travelling route and the type of transport e.g. on exit with destination in Croatia customs will not check the vessel, but will with destination in Serbia. Also, vessels arriving from Croatia will not be subject of customs check. Dangerous goods transports are checked thoroughly. On-board controls are necessary in all cases. Border police officers carry out border checks by handheld mobile devices, so passports shall remain on board.

## 6. Croatia

### 6.1 General information on border controls

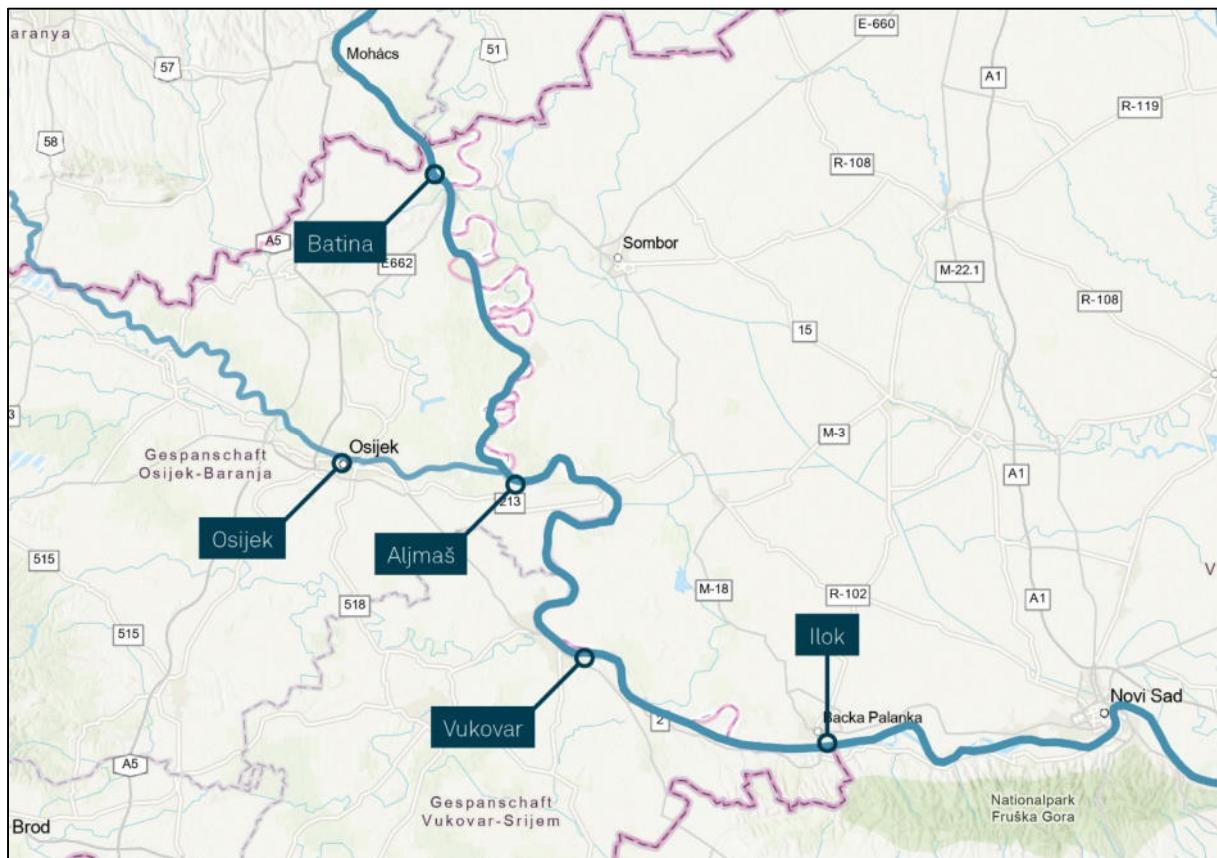

Figure 4: Overview of control points in Croatia; base map: ©Esri, adapted by viadonau

### 6.1.1 Control process

<b>Step 1</b>	<ul style="list-style-type: none"><li>- Getting approval from Border police, Custom service and Harbour Master for docking ship in a docking place outside international river border crossing place done by ship agent.</li><li>- After getting the approval for docking place, ship captain/hotel manager sends crew and passenger list in an electronical form to the ship agent.</li><li>- Ship agent submits crew and passenger lists as well as cargo, convoy and ship stores information in electronical form via Information inland navigation system (ISUP)* to the relevant administration services at least 24 hours before the ship arrives in the port or on departure from the last port (if voyage takes less than 24 h)</li></ul>
Ship agent insert the data about embarkation/sailing of the ship (notification of the ship arrival, passenger list, crew list, cargo data etc) into Inland navigation information system (ISUP). Those data are visible to all agencies which are performing border checks. Border guards inserts those data into Croatian border management information system with the aim to cross check data in databases.	
<b>Step 2</b>	Announcement of ship arrival in port by ship agent to the Border police, Custom service, Harbour master service and Port Authority.
<b>Step 3</b>	Ship arrival at the border control point.
<b>Step 4</b>	<p>Optional - Ship agent sends confirmation or updated passenger and crew list in case of some changes</p> <ul style="list-style-type: none"><li>- Border police checks crew and passenger lists in the office</li></ul>
<b>Step 5</b>	Arrival of all involved authorities on the ship.
<b>Step 6</b>	<p>On-board check is being conducted:</p> <ul style="list-style-type: none"><li>- Border Police: passports of crew and passengers (with mobile document readers)</li><li>- Customs Controls: gasoil declaration, fuel tanks inspection, ship and cargo inspection, ship proviant inspection, cash declaration</li><li>- Harbour Master Office: review of the vessel's log book on the ship, document checks (captains patent, yellow oil book) and signature collection from the different authorities</li></ul>

\* **Information Inland Navigation System (ISUP)** is Croatian national single window system for electronic reporting of all required information regarding the official ship reporting to shore administrations (border, customs and harbour master office). ISUP is in operational use from 1 January 2021 and it is web graphical user interface (GUI) based system used for reporting information on both domestic and international inland ship navigation. Obligatory information to be provided in ISUP by declarants (ship agents, masters and ship companies) is prescribed by national law. Data required is inputted in ISUP GUI either manually or by uploading relevant spreadsheets (also used to gather data from ships). ISUP will be connected to CEERIS via dedicated web service in order to exchange data S2S. Process of inputting data to ISUP is shown below.

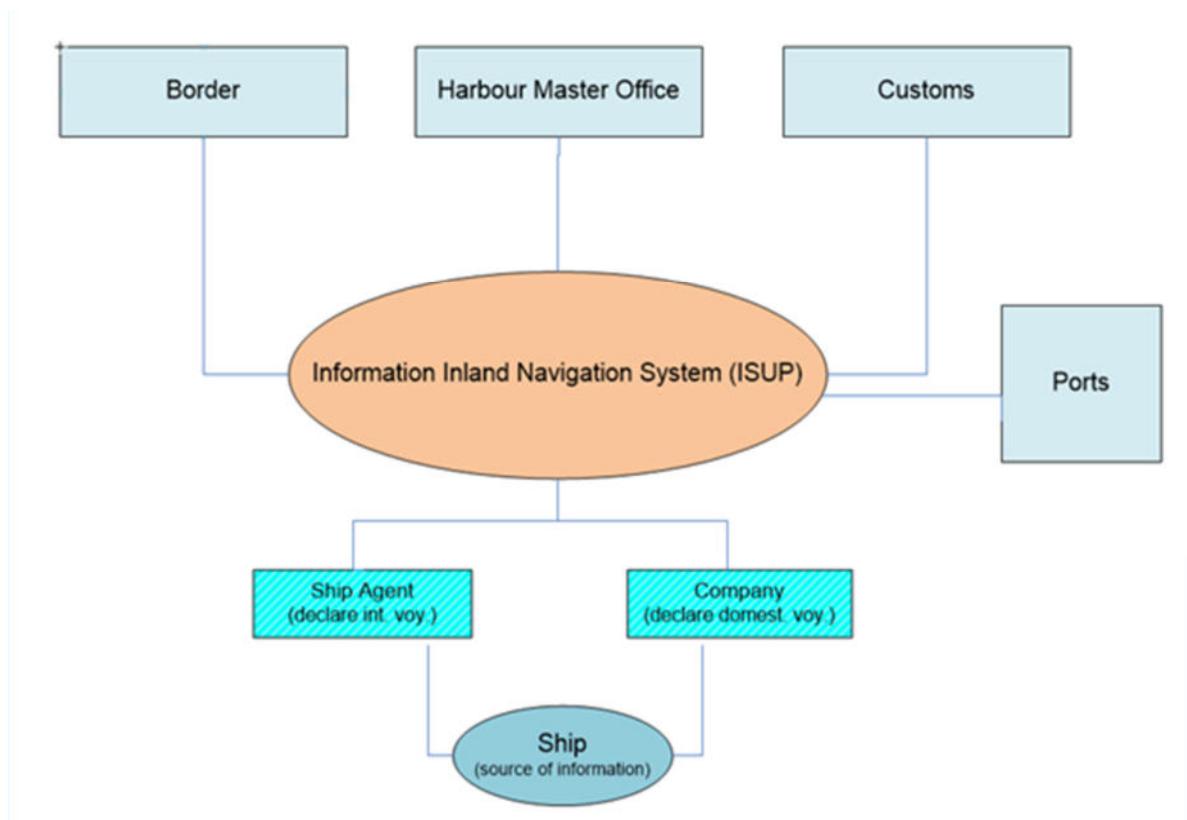

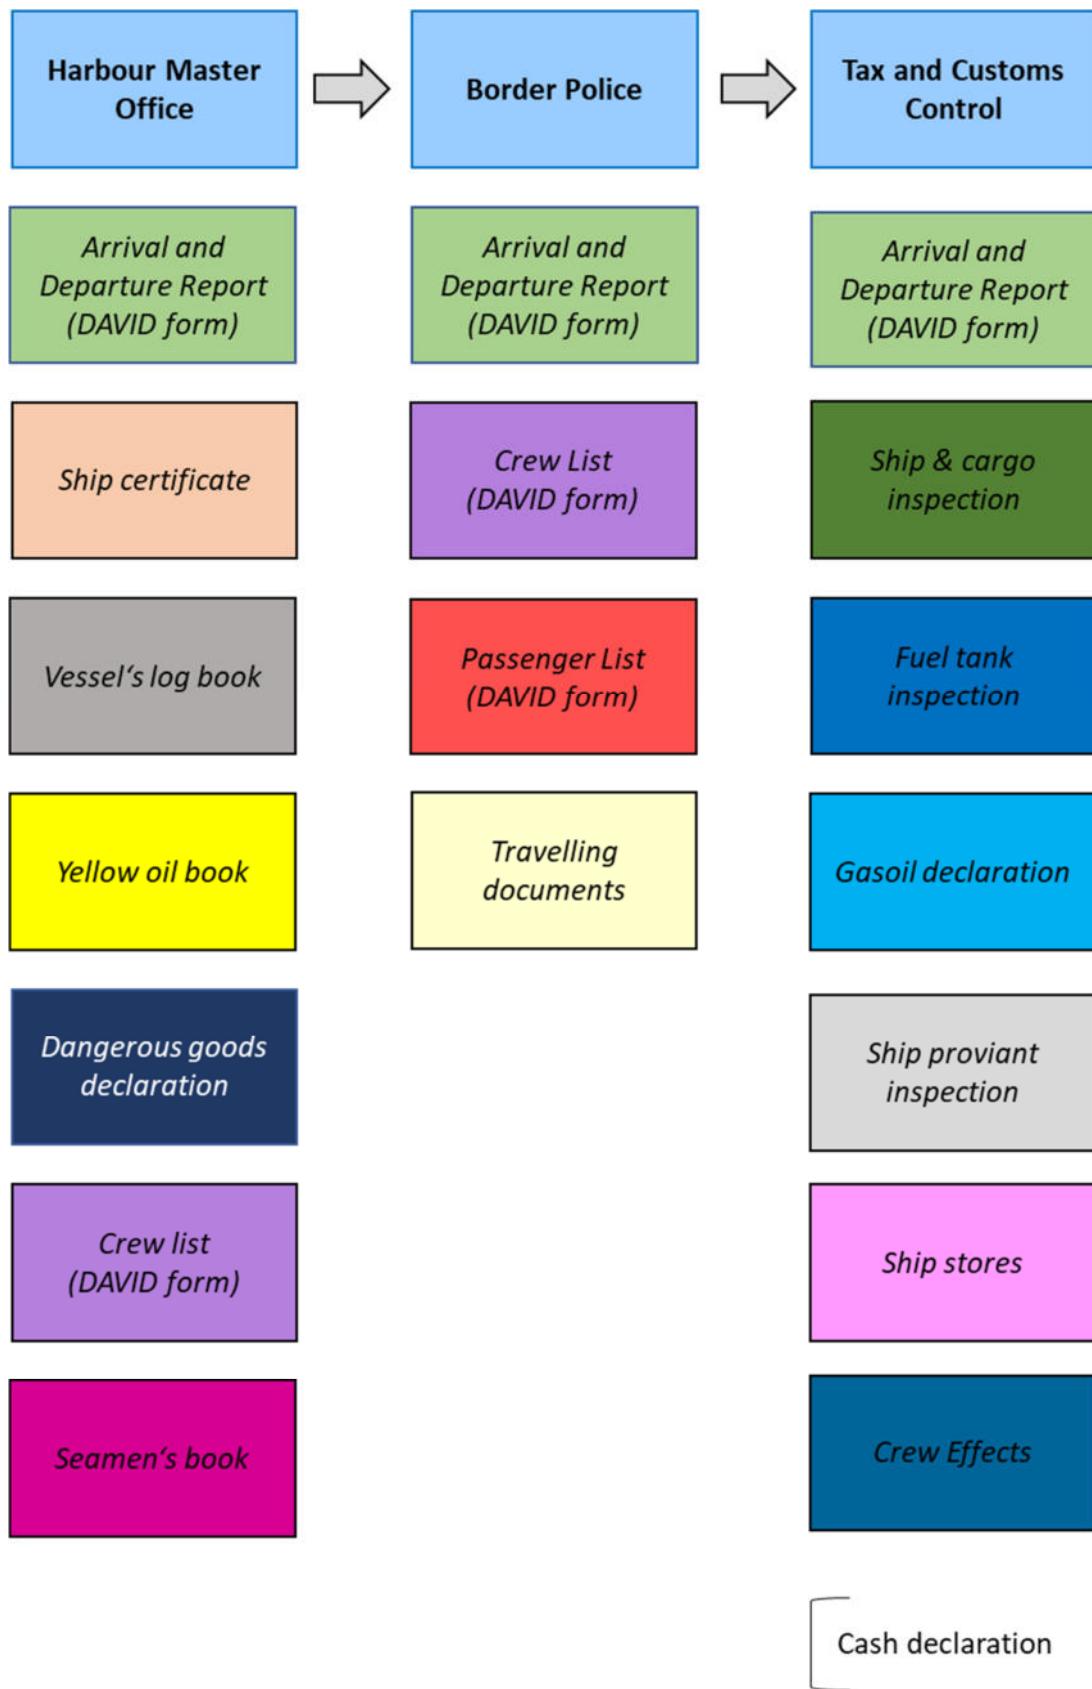

Figure 5: Information Inland Navigation System (ISUP)

In addition to this control procedure following control authorities can be involved: Health Control and Phytosanitary Control.

**Figure 6: Overview of the control procedure in Croatia**

**Pitanja zapovjedniku i odgovornoj osobi ukreajnog/iskreajnog mjesto  
Fragen an den Schiffsführer und an die verantwortliche Person der Umschlagstelle**

Ukraj/iskraj smije početi tek nakon odgovora na sva pitanja kontrolne liste znakom »X«, tj. odgovorima sa DA te da je lista potpisana od obje osobe.

Mit dem Umschlag darf erst begonnen werden, wenn alle nachfolgenden Fragen der Prüfliste mit »X« angekreuzt, dh. mit JA beantwortet sind und die Liste von beiden Personen unterschrieben ist.

Neprimjenjiva pitanja treba prečrtati.  
Nichtzutreffende Fragen sind zu streichen.

U koliko sva pitanja nisu odgovorena sa DA, ukraj/iskraj je dopušten samo uz odobrenje lučke kapetanije.  
Können nicht alle zutreffenden Fragen mit JA beantwortet werden, ist der Umschlag nur mit Zustimmung der örtlichen zuständigen Behörde gestattet.

\* prečrati na prikladan način  
Nichtzutreffendes entsprechend streichen

	brod Schiff	ukrcajno/iskrcajno mjesto Umschlagsstelle
1. Da li brod ima dozvolu za prijevoz ovog tereta? Ist das Schiff zur Beförderung des Umschlagsgutes zugelassen?	o*	o*
2. Da li je zapovjednik broda od pošiljaljca dobio uputstva u pisanom obliku prema Rb 210 385? Hat der Schiffsführer vom Verlader die schriftlichen Weisungen nach Rn 210 385 erhalten?	o*	o*
3. Da li je brod dobro privezan obzirom na lokalne prilike? Ist das Schiff den örtlichen Verhältnissen entsprechend gut festgemacht?	o	-
4. Da li brod na prameu i na krmi ima prikladna sredstva za ukrcaj ili napuštanje broda, uključujući i slučajev u nužnosti? Sind im Bereich des Vor- und des Hinterschiffes geeignete Mittel vorhanden, um das Schiff auch in Notfällen zu betreten oder zu verlassen?	o	o
5. Da li su odgovarajuće osvijetljeni putevi bježanja i ukrcajno/iskrcajno mjesto? Ist eine wirksame Beleuchtung der Umschlagsstelle und der Fluchtwiege sichergestellt?	o	o
6. Spoj brod/obala Schiff-Land-Verbindung <ul style="list-style-type: none"> <li>6.1. Da li su savitljive cijevi tereta između broda i obale u zadovoljavajućem stanju? Befinden sich die Umschlagsleitungen zwischen Schiff und Land in gutem Zustand? Da li su te savitljive cijevi korektno spojene? Sind diese Umschlagsleitungen richtig angeschlossen?</li> <li>6.2. Da li su sve spojne prirubnice opremljene prikladnim brtvama? Sind alle Verbindungsflanschen mit geeigneten Dichtungen versehen?</li> <li>6.3. Da li su svi spojni vijci postavljeni i pritegnuti? Sind alle Verbindungsbolzen eingesetzt und angezogen?</li> <li>6.4. Da li su obalne ukrcajne ruke slobodne za pokretanje u svim pravcima i, da li savitljive cijevi imaju dovoljno prostora za lagano pokretanje? Sind die Gelenkkarne in allen Betriebsachsen frei beweglich und haben sie und die Schläüche genügend Spielraum?</li> </ul>	-	o
7. Da li su sve neupotrebljene prirubnice priključaka ukrcajnih i iskrcajnih cijevi i cijevi para tereta korektno zatvorene slijepim prirubnicama? Sind alle unbenutzten Anschlüsse der Lade-/Löschleitungen und der Gassammelleitung einwandfrei blindgeflossen?	o	o
8. Da li su na prikladan način postavljena sredstva za skupljanje isurenog tereta ispod spojeva cijevi koje su u upotrebi? Sind unter den benutzten Anschlussstützen geeignete Mittel vorhanden, um Leckflüssigkeit aufzunehmen?	o	o
9. Da li su pokretni spojni dijelovi između balastnog i kaljužnog cjevovoda s jedne strane i cijevi za ukrcaj i iskrcaj sa druge strane odspojeni? Sind die abnehmbaren Verbindungen zwischen Ballast- und Lenzleitungen einerseits und Lade-/Löschleitungen andererseits ausgebaut?	o	-
10. Da li je osiguran stalni i prikladan nadzor ukrcaja/iskrcaja za čitavo vrijeme trajanja? Ist für die gesamte Dauer des Umschlags eine stetige und zweckmäßige Überwachung sichergestellt?	o	o
11. Da li je osigurana komunikacija između broda i obale? Ist die Verständigung zwischen Schiff und Land sichergestellt?	o	o
12.1. Prilikom ukrcaja, da li je cijev para tereta, kada se zahtjeva, ili kada postoji, spojena sa obalnim plinskim povratnim cjevovodom? Ist die Gassammelleitung bei der Beladung des Schiffes an die Gasrückführung an Land soweit erforderlich bzw. vorhanden angeschlossen?	o	o
12.2. Da li je osigurano da je obalna instalacija takova da tlak spojne točke ne može prijeti tlak otvaranja visoko-brzinskih odsušnih ventila (.....kPa)? Ist durch die Landanlage sichergestellt, dass der Druck an der Übergabestelle den Öffnungsdruck des Hochgeschwindigkeitsventils nicht übersteigt (.....kPa)?	-	o*
13. Da li je poznato koje se radnje moraju poduzeti u slučaju »Zaustavljanje u nužnosti« i »Alarm«? Sind die Maßnahmen hinsichtlich »Not-Stop« und »Alarm« bekannt?	o	o

\* ispuniti samo u slučaju ukrcaja  
auszufüllen nur im Fall des Umschlags

14.	Provjeri najvažnije radne zahtjeve: Kontrolle der wichtigsten Betriebsvorschriften: <ul style="list-style-type: none"> <li>- Da li su zahtijevani protupožarni sustavi i uređaji u radnom stanju?</li> <li>- Sind die vorgeschriebenen Feuerlöscheinrichtungen und geräte betriebsfähig betriebsfähig?</li> <li>- Da li je provjereno da su svi ventili i ostali uređaji za zatvaranje u radnom položaju (otvorenom ili zatvorenom)? Sind alle Ventile und Absperrorgane auf richtige Stellung (offen oder geschlossen) kontrolliert?</li> <li>- Da li je pušenje u glavnom zabranjeno? Ist ein generelles Rauchverbot angeordnet?</li> <li>- Da li su isključeni uređaji za grijanje, kuhanje i hlađenje na brodu koji koriste otvoreni plamen? Sind die Heiz-, Koch- und Kühlgeräte mit offener Flamme ausser Betrieb?</li> <li>- Da li su instalacije ukapljenog plina zatvoreno na glavnem ventilu? Sind die Flüssiggasanlagen am Hauptsperrorgan abgeschaltet?</li> <li>- Da li su radarne instalacije bez napona? Sind die Radarlagen ohne Spannung?</li> <li>- Da li su svi električni uređaji sa crvenom oznakom isključeni? Sind alle elektrischen Einrichtungen mit roter Kennzeichnung ausgeschaltet?</li> <li>- Da li su svi prozori i vrata zatvoreni? Sind alle Fenster und Türen geschlossen?</li> </ul>	<input type="radio"/>	<input type="radio"/>
15.1.	Da li je radni tlak brodske iskrejne pumpa podešen prema dozvoljenom radnom tlaku obalne instalacije? Ist der Ausgangsdruck der borddeutschen Löschpumpe auf den zulässigen Betriebsdruck der Landanlage abgestimmt? (ispunjava samo brod) (nur vom Schiff auszufüllen)	<input type="radio"/>	<input type="radio"/>
15.2.	Da li je radni tlak obalne pumpe podešen prema dozvoljenom radnom tlaku brodske instalacije? Ist der Ausgangsdruck der landseitigen Ladepumpe auf den zulässigen Betriebsdruck der Bordanlage abgestimmt? (ispunjava samo ukrnjeno/iskrejno mjesto) (nur von der Umschlagstelle auszufüllen)	<input type="radio"/>	<input type="radio"/>
16.	Da li je alarm razine u radnom stanju? Ist das Niveau-Warngerät betriebsfähig?	<input type="radio"/>	<input type="radio"/>
17.	Da li je osjetnik visoke razine koji uključuje zatvorni uređaj od preprečavanja u radnom stanju i da li je ispitati? Ist das System für die Auslösung der Oberflächesicherung angeschlossen, betriebsfähig und überprüft?	<input type="radio"/>	<input type="radio"/>
18.	Ispunjava se samo u složaju ukrnja ili iskreja tvari za čiji se prijevoz zahtjeva brod zatvorenog tipa ili brod otvorenog tipa sa zaustavljivačem plamena. Nur auszufüllen von dem Umschlag von Stoffen, für deren Beförderung ein geschlossenes Schiff oder ein offenes Schiff mit Flammendurchschlagsicherungen vorgeschrieben ist. Da li su grotla tetovačih tankova i inspekcijski otvori tereta, otoci tetovačih tankova za sodiranje, mjerjenje i uzmjerenje uzoraka zatvoreni ili zatvoreni zaustavljivačem plamena u dobrom stanju? Sind die Tankluken, Sicht-, Peil- und Probentnahmehöfungen der Ladetanks geschlossen oder gegebenenfalls durch in gutem Zustand befindliche Flammendurchschlagsicherungen gesichert?	<input type="radio"/>	<input type="radio"/>

**Objašnjenje****Erklärung:****Pitanje 3****Frage**

»Dobro privezan« znači da je brod privezan na mol ili stanicu za prekraj tereta na takav način da su, bez intervencije treće osobe, pomaci broda u bilo kojem smjeru koji mogu smetati radu teretnog uredaja onemogućeni. Postojeća ili očekivana promjena vodostaja na tom mjestu kao i posebni uvjeti trebaju se uzeti u obzir.

Unter »gut festgemacht« wird verstanden, dass das Schiff derartig an der Landungsbrücke bzw. am Umschlagsteiger befestigt ist, dass es ohne übergebührliche Einwirkung Dritter in keiner Richtung eine Bewegung ausführen kann, die das Umschlagsgerät überbeanspruchen könnte. Dabei ist den an dieser Örtlichkeit gegebenen bzw. voraussehbaren Wasserspiegelschwankungen und Besonderheiten des Umschlages Rechnung zu tragen.

**Pitanje 4****Frage**

Mora postojati mogućnost ulaska na brod ili napuštanja broda u bilo kojem trenutku. Ako nema nijedan ili je samo jedan zaštićeni put za bježanje dostupan na obalnoj strani za brzo napuštanje broda u slučaju nužnosti, treba biti predviđeno prikladno sredstvo za napuštanje broda na riječnoj strani (npr. spuštajući čamac za spašavanje).

Das Schiff muss jederzeit sicher betreten und verlassen werden können. Stehen lanseitig keine geschützten Fluchtwiege oder nur ein Fluchtweg zum schnellen Verlassen des Schifes im Notfall zur Verfügung, muss schiffseitig ein weiteres geeignetes Fluchtmittel vorhanden sein (z.B. ein ausgebrachtes Beiboot).

**Pitanje 6****Frage**

Valjana potvrda o ispitivanju za ukrcajno/iskrcajne savitljive cijevi mora biti dostupna na brodu. Materijal savitljivih cijevi mora biti u mogućnosti podnijeti očekivano opterećenje i biti prikladan za prekraj pojedinih vrsta tereta. Pojam savitljive cijevi tereta uključuje savitljive cijevi isto tako kao i obalni ukrcajno/iskrcajni krak. Savitljive cijevi tereta između broda i obale moraju biti postavljene tako da se ne mogu oštetići promjenom vodostaja, prolascima brodova i/ili ukrcajno/iskrcajnim radovima.

Svi prirubnički spojevi trebaju biti opremljeni sa odgovarajućim brtvama i dovoljnim brojem spojnih vijaka u smislu isključivanja mogućnosti curenja.

Für die Lade-/Löschschläusche muss eine gültige Prüfbescheinigung vorliegen. Das Material der Schläuche muss den vorgesehenen Beanspruchungen widerstehen können und für den Umschlag der jeweiligen Stoffe geeignet sein. Der Begriff Leitungen umfasst sowohl Schläuche als auch Lade-/Löscharme. Die Umschlagsleitungen zwischen Schiff und Land müssen so angebracht sein, dass sie durch die üblichen Schiffsbewegungen infolge Wasserspiegeländerungen, vorbeifahrender Schiffe und des Lade-/Löschvorgangs nicht beschädigt werden können. Ebenso müssen alle Flanschverbindungen mit den passenden Dichtungen und genügend Befestigungsmitteln versehen sein, damit Leckage ausgeschlossen ist.

**Pitanje 10****Frage**

Ukrcaj/iskrcaj mora biti nadziran na brodu i na obali tako da opasnost koja se može dogoditi u blizini savitljivih cijevi tereta može biti uočena trenutno.

Der Umschlag muss an Bord und an Land derart beaufsichtigt werden, dass im Bereich der Übergabeleitungen auftretende Gefahren sofort erkannt werden können.

**Pitanje 11****Frage**

Za siguran ukrcajno/iskrcajni postupak potrebne su dobre komunikacije između broda i obale. Za ovu namjenu telefon i radio oprema mogu se koristiti samo ako su u protuexplozijskoj izvedbi (S-izvedbi) i postavljeni u dosegu nadzornika.

Für einen sicheren Lade-/Löschvorgang ist eine gute Verständigung zwischen Schiff und Land erforderlich. Zu diesem Zweck dürfen Telefon - und Funkgeräte nur verwendet werden, wenn sie exgeschützt und im Reichweite der Aufsichtsperson angeordnet sind.

**Pitanje 13****Frage**

Prije početka ukrcajnog/iskrcajnog postupka odgovorna osoba ukrcajno/iskrcajnog mjesta i zapovjednik broda moraju prihvati primjenjiv postupak. Posebna svojstva tvari koja se ukrcava/iskrcava moraju biti uzeta u obzir.

Vor Beginn des Lade-/Löschvorgangs müssen sich der Vertreter der Landanlage und der Schiffsführer über die anzuwendenden Verfahren einigen. Den besonderen Eigenschaften der zu ladenen oder zu löschen Stoffe ist Rechnung zu tragen.

## 6.2 Information on specific border control points

### 6.2.1 Batina – Beli Manastir

**Location on the Danube/River-km:** 1,425+500

**Postal address:** Batina, Dunavska bb

**Characteristics:** Non-regular international river border crossing (operating only in exceptional cases or upon special request by agent or port authority)

**Mean duration of checks (including waiting time):** 60 minutes

#### Involved control authorities:

Involved control authorities	Contact data	Opening hours
Border Police Station Dalj (in short: Border Police)	Dalj. Josipa Glibušića 1, 31226 Dalj Phone: +385 31590123	00:00-24:00 all week
Harbour Master Office Vukovar	Županijska 62, 32000 Vukovar Phone: +385 32441538	07:30-15:30 all week
Customs Office, Osijek (in short: Tax and Customs Control)	Ulica Jablanova 11, 31000 Osijek Phone: +385 31593191 +385 31593184	07.30 - 15.30 all week

#### Place of checks:

##### Coordinates:

$\varphi = 45.852805$   
 $\lambda = 18.853982$

## 6.2.2. Aljmaš

**Location on the Danube/River-km:** 1,380+200

**Postal address:** Dunavska obala b.b

**Characteristics:** Non-regular international river border crossing (operating only in exceptional cases or upon special request by agent or port authority)

**Mean duration of checks (including waiting time): 60 min**

### Involved control authorities

Involved control authorities	Contact data	Opening hours
Border Police Station Dalj (in short: Border Police)	Josipa Glibošića 1. Dalj, 31226 Duboševica Phone: +385 238 220	00:00-24:00 all week
Harbour Master Office Vukovar	Županijska 62, 32000 Vukovar Phone: +385 32441538	07:30-15:30 all week
Customs Office, Vukovar (in short: Tax and Customs Control)	Dunavski prilaz BB, 32000 Vukovar Phone: +385 32453242	07:30-15:30 all week

### Place of checks

#### Coordinates:

$\phi = 45.531479$   
 $\lambda = 18.951821$

### *6.2.3. Osijek*

**Location on the Drava/River-km:** 13.00

**Postal address:** Vukovarska ulica 229 b, 31000 Osijek

**Characteristics:** Joint controls by all relevant authorities

**Mean duration of checks (including waiting time):** 30 – 60 minutes

**Involved control authorities:**

Involved control authorities	Contact data	Opening hours
Border Police Station Dalj (in short: Border Police)	Josipa Glibušića 1, 31226 Dalj Phone: +385 31238220	00.00 – 24.00 all week
Harbour Master Office Osijek	Šetalište Kardinala Franje Šepera 6, 31000 Osijek Phone: +385 31250240	07.30 – 15.30 all week
Customs Office, Osijek (in short: Tax and Customs Control)	Ulica Jablanova 11, 31000 Osijek Phone: +385 31593191 +385 31593184	07.30 - 15.30 all week

**Place of checks:**

The border control point Osijek is located between River-km 12+650 and 13+370 of the Drava River.

#### 6.2.4. Vukovar

**Location on the Danube/River-km:** 1,335.00

**Postal address:** Stjepana Radića 64, 32000 Vukovar

**Characteristics:** International river border crossing, River-km 1.333+000 (check point for cruiser ships – outside of the river BCP), River-km 1.335+000, River-km 1.335+500

**Mean duration of checks (including waiting time):** 60 min

**Involved control authorities:**

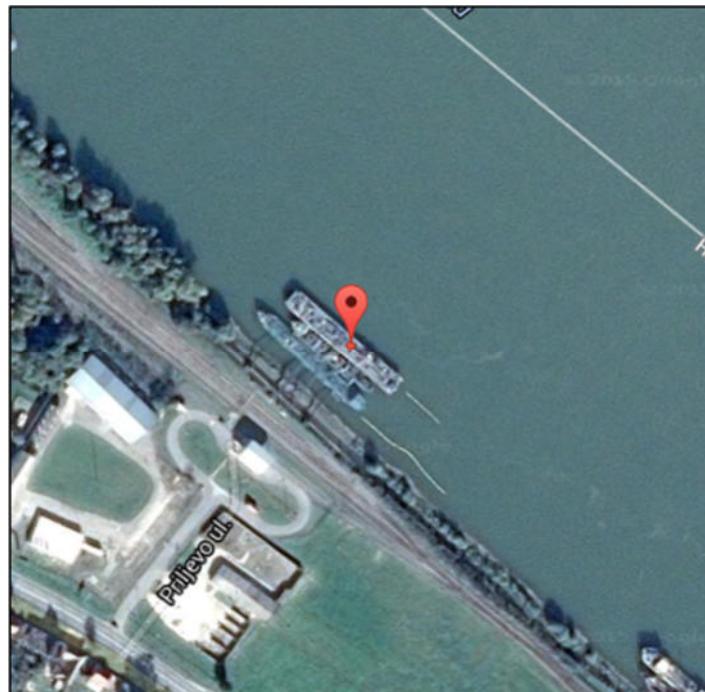

Involved control authorities	Contact data	Opening hours
Police Station Vukovar (in short: Border Police)	Stjepana Radića 64, 32000 Vukovar Phone: +385 32342142	00:00 – 24:00 all week
Harbour Master Office Vukovar	Županijska 62 32000 Vukovar Phone: +385 32441538	07:00 – 15:00 Monday - Friday
Customs Office, Vukovar (in short: Tax and Customs Control)	Dunavski prilaz BB, 32000 Vukovar Phone: +385 32453242	07:30 – 15:30 all week

**Place of checks:**

- Check on River-km 1,333.00 (coordinates 45.351848, 19.006122) - passenger ships check point
- Check on River-km 1,335.00 (coordinates 45.367386, 18.980738) - cargo ships check point
- Check on River-km 1,335.50 (coordinates 45.368995, 18.978192) - bunker station for ship supply with diesel fuel and lubricants check point
- Check on River-km 1,336 (coordinates 45.370150, 18.976665) – bulk cargo terminal (silos)

Coordinates:

$\varphi = 45.367386$ ,  
 $\lambda = 18.980738$

#### *6.2.5. Ilok*

**Location on the Danube/River-km:** 1,298+600 and 1,297+000

**Postal address:** Dr. Franje Tuđmana 49, 32236 Ilok

**Characteristics:** Non-regular international river border crossing (operating only in exceptional cases or upon special request by agent or port authority)

**Mean duration of checks (including waiting time):** 60 min

#### **Involved control authorities:**

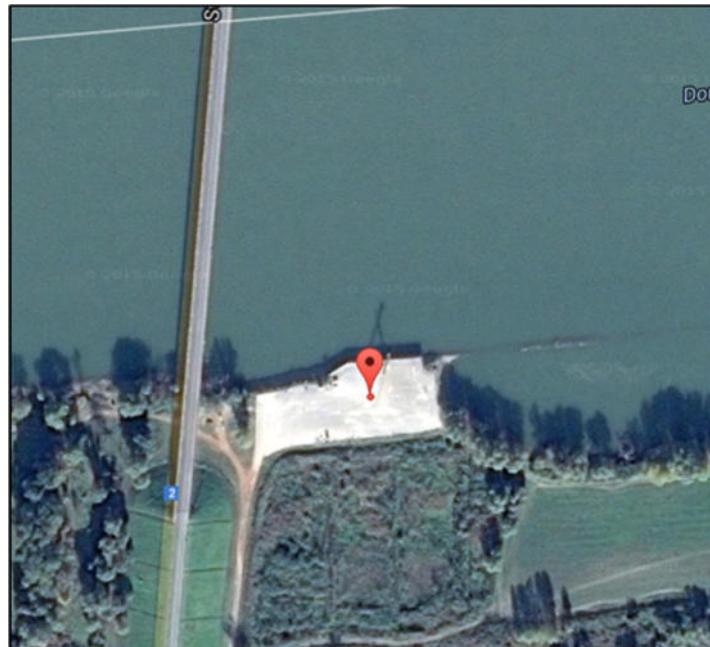

Involved control authorities	Contact data	Opening hours
Police Station Vukovar (in short: Border Police)	Dr. Franje Tuđmana 49, 32236 Ilok Phone: +385 32343758	00:00 – 24:00 all week
Harbour Master Office Vukovar	Županijska 62, 32000 Vukovar Phone: +385 32441538	07:30 – 15:30 all week
Customs Office, Vukovar (in short: Tax and Customs Control)	Dunavski prilaz BB, 32000 Vukovar Phone: +385 32453242	07:30 – 15:30 all week

#### **Place of checks:**

- Check on River-km 1,298.60 (coordinates 45.230621, 19.379086) – passenger ships check point
- Check on River-km 1,297.00 (coordinates 45.230708, 19.403092) - cargo ships check point (optionally)

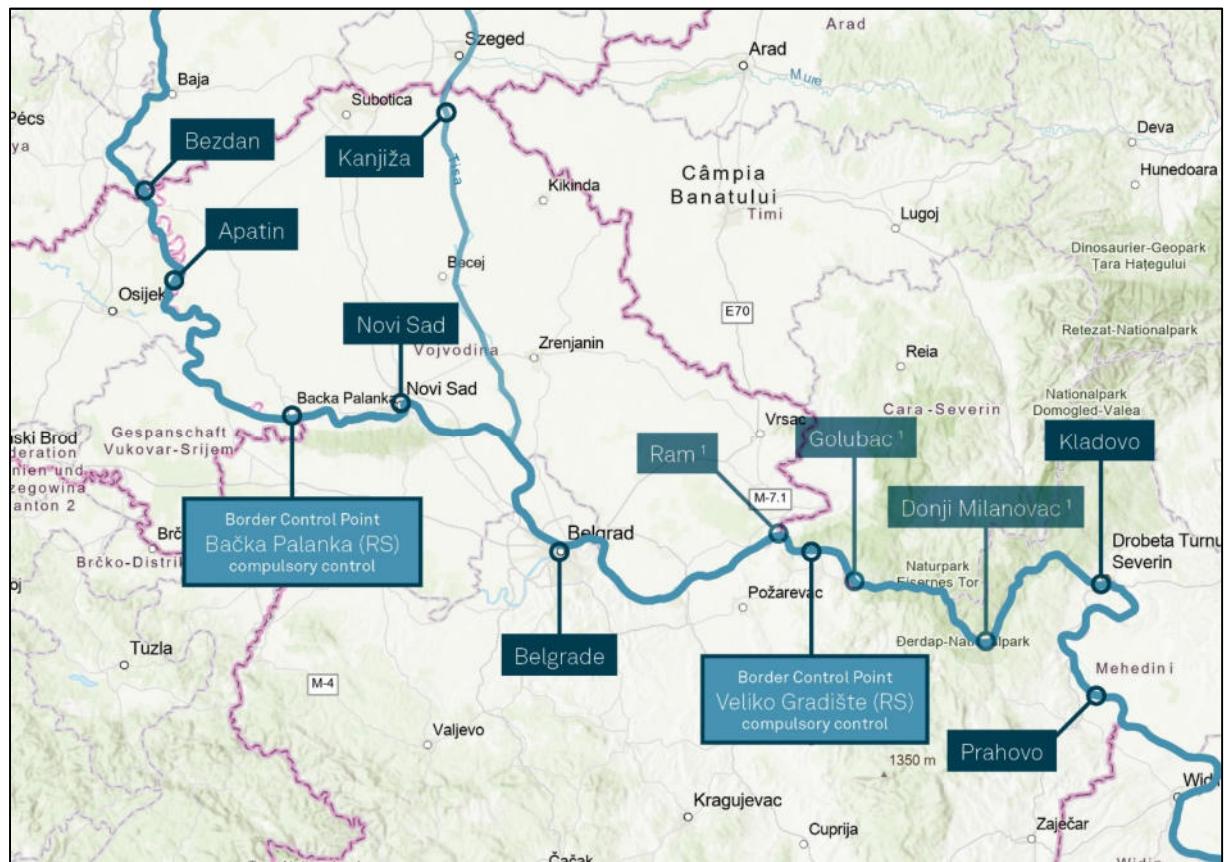

#### Coordinates:

$\varphi = 45.230708$   
 $\lambda = 19.403092$

## 7. Serbia

### 7.1 General information on border controls

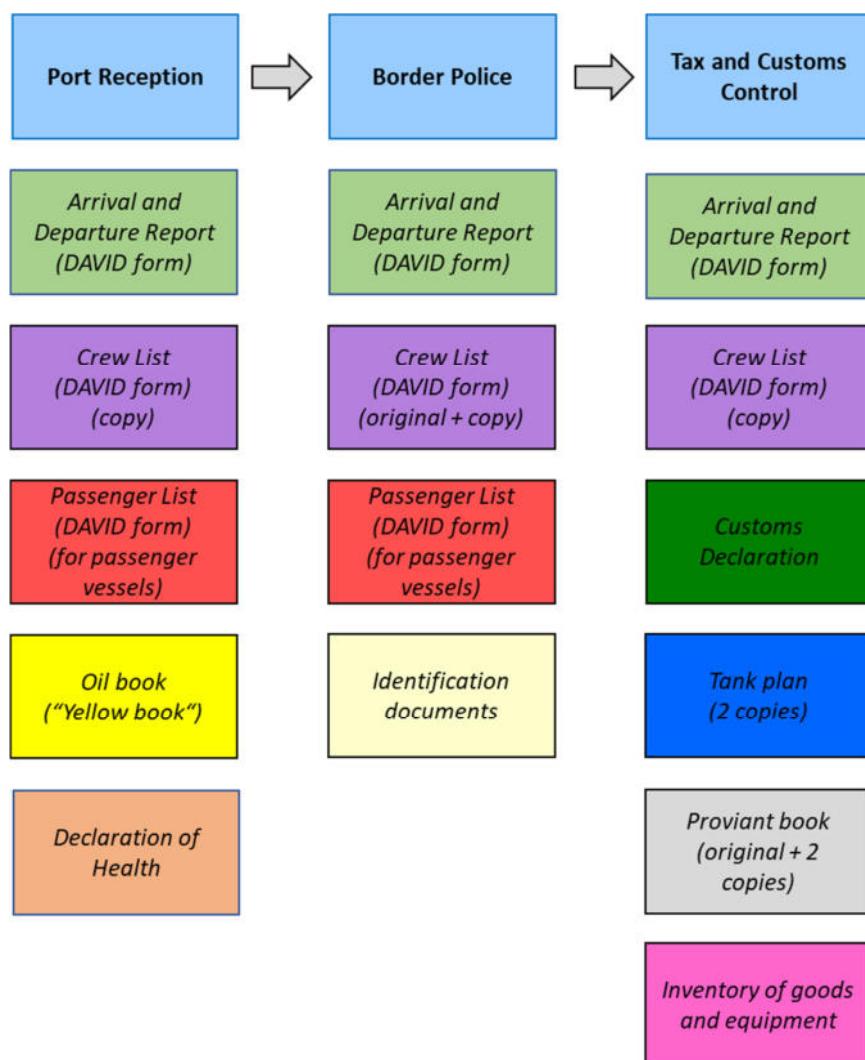

<sup>1</sup>Ram, Golubac and Donji Milanovac: control points mainly for passenger ships during the summer tourist season

Figure 7: Overview of control points in Serbia; base map: ©Esri, adapted by viadonau

### 7.1.1. Control process

<b>Step 1</b>	Establishing contact via radio communication (V 16)
<b>Step 2</b>	Port reception dispatcher approves control spot
<b>Step 3</b>	Captain (or other person in charge) provides the port reception with requested control forms
<b>Step 4</b>	Port reception checks the numbers of crew members
<b>Step 5</b>	Captain visits the offices of the Border Police, Tax and Customs Control. Requested documents (passports, crew list, etc.) are handed in and forms filled out (see chapter control forms)
<b>Step 6</b>	A mixed team representing all the relevant authorities carries out the on-board controls
<b>Step 7</b>	The vessel is permitted to continue sailing

In addition to this documentation the following documents need to be provided:  
Bills of lading, invoices, accompanying documentation of the transported goods.

Figure 8: Overview of the control procedure in Serbia

## 7.1.2. Control forms

### Form 1: DAVID Arrival & Departure Report (available language(s): RS, EN)

ИЗВЕШТАЈ О ДОЛАСЦИМА И ОДЛАСЦИМА / ARRIVAL AND DEPARTURE REPORT		
	'Пријем Arrival	'Одјем Departure
1.1. Име и кратак број (такође плавило) број/ укупну једицу претходно коришћену броју – уколико постоји појам : Name and type of ship (main vessel) including previous name(s) of ship – if applicable	1.2 Ерој брод/ европски идентификациони број (ENI) (главно плавило/брод) / Ship number/ENI-European Number of Identification (main vessel)	
1.3 ММСИ број – уколико постоји појам : MMSI number – if applicable	1.4 Ердско савдоњакство валидо до (главно плавило/брод) : Vessel certificate valid until (main vessel)	
2. Лука доласка/одласка : Port of arrival/departure	3. Датум и време доласка/одласка : Date and time of arrival/departure	
4. Држава прописа/порекло брова (држава/место регистрације) укључујући претходну припадност брова – уколико постоји појам : Nationality of ship (country/area of registration) including previous nationality of ship – if applicable	5. Име заповедника : Name of master	6. Контролни тачка/границски прелаз : Control point/border crossing point
7. Укупна дужина (м) : Укупна широта (м) : Total length (m)/Total width (m)	8. Име и контакт подаци оператора брова : Name and contact details of ship operator	
9. Трошувач гас (м) : Actual draught (m)	10. Максимална тонажа (t) /Укупна количина терета (t) /Maximum tonnage (t) /Total quantity of cargo (t)	
11. Напомена број/и у .уци (место стварања или станица) – уколико постоје подаци / Position of the ship in the port berth or station) – if applicable		
12. Кратки подаци о путовању (претходне и наредне луке; жадано где ће терет бити испловарен) / Brief particulars of voyage (previous and subsequent ports; underline where cargo will be discharged)		
13. Кратки опис терета / Brief description of the cargo		
14. Регистрација и одређивање сковоносачког оператора – уколико постоји појам : EORI/Economic Operator's Registration and Identification - if applicable	15. Број чланова посаде : Number of crew	16. Напомене : Remarks

## 8. Romania

### 8.1 General information on border controls

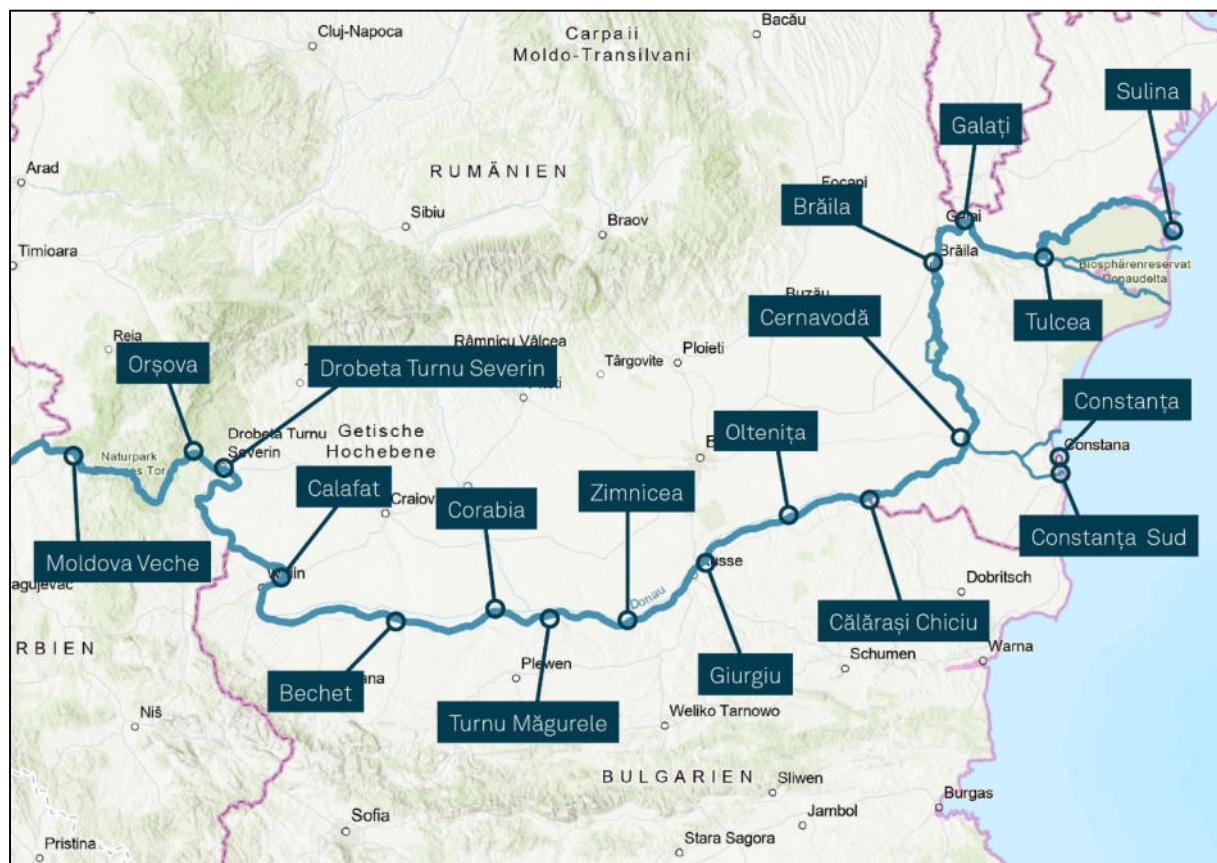

Figure 9: Overview of control points in Romania; base map: ©Esri, adapted by viadonau

### *8.1.1. Control process*

<b>Step 1</b>	Vessel traffic on the border section is monitored via RIS and port radar system.
<b>Step 2</b>	Establishing contact via radio communication.
<b>Step 3</b>	Dispatcher from Harbour Master Office allots the ship near the border crossing point or in an area for control located near the ship.
<b>Step 4</b>	A mixed team representing all the relevant authorities will go on the deck of the controlled ship.
<b>Step 5</b>	The captain / the agent will send / offer to the different authorities the documents (see annex) in order to be checked. This activity can be accomplished through the agent or the documents are handed over to the control team when the team arrives on the deck.
<b>Step 6</b>	On-board check is being conducted: <ul style="list-style-type: none"><li>- Border Police: passports of crew and passengers (with mobile document readers), accordance with crew and passenger list and a vessel inspection</li><li>- Harbour Master representatives: boat master's certificate, technical ship certificate, alcohol check, AIS transponder, service book entry, ADN handbook, ADN certificate, expert qualification, fire extinguishers, safety equipment, etc.</li><li>- Tax and Customs Control: Captain's Declaration, Cargo General Declaration, Cargo Manifest, Shipping Order/Mate's Receipt, Bill of Lading, Draught Survey Report, Gasoil Declaration, inspection of tanks, etc.</li></ul> After the control, all authorities are preparing a report. This will be signed by the parties. A copy stays with the captain.

In case of a transit control for passing the national section of the Romanian Danube (between Călărași/Chiciu and Galați) the following steps of the control process apply:

<b>Step 1</b>	Vessel traffic on the border section is monitored via RIS and port radar system.
<b>Step 2</b>	Establishing contact via radio communication.
<b>Step 3</b>	Dispatcher from Harbour Master Office allots the ship to the control spot by the approval of the Border Police.
<b>Step 4</b>	Service boat will sail to the ship. A mixed team representing all the relevant authorities will go on the deck of the controlled ship. On the deck, in the presence of the captain, the control team checks the ship / boat and the documents.
<b>Step 5</b>	The captain / the agent will sign a declaration, which will certify that the ship does not have prohibited goods on board (see control forms) and the form named Harbour Master Transit (Control du bateau en transit).
<b>Step 6</b>	On-board check is being conducted: <ul style="list-style-type: none"><li>- Border Police: passports of crew and passengers (with mobile document readers), accordance with crew and passenger list and a vessel inspection</li><li>- Harbour Master representatives: boat master's certificate, technical ship certificate, alcohol check, AIS transponder, service book entry, ADN handbook, ADN certificate, expert qualification, fire extinguishers, safety equipment, etc.</li><li>- Tax and Customs Controls: Captain's Declaration, Cargo General Declaration, Cargo Manifest, etc. The storage areas on board must be sealed only for the prohibited goods.</li></ul>

It is mandatory to mention that in this document you will find forms used for maritime ships. The reason is that on the Danube you can sail with them until river-km 175 (BCP Brăila).

## 8.2 Information on specific border control points

### 8.2.1. Moldova Veche

**Location on the Danube/River-km:** 1,049.10 - 1,047.00

**Postal address:** Moldova Veche Town, No. 1-3 Portului Street, Caraş Severin County

**Characteristics:** Joint controls by all relevant authorities at designated spots in the river

**Mean duration of checks (including waiting time):** 90 minutes

**Involved control authorities:**

Involved control authorities	Contact data	Opening hours
Border control point - Moldova Veche (in short: Border Police)	Phone: +40 255572002	00.00 – 24.00 all week
Harbour Master Office Moldova Veche	Phone/Fax: +40 372742546 E-mail: <a href="mailto:cpt.moldovaveche@gmail.com">cpt.moldovaveche@gmail.com</a>	00.00 – 20.00 all week
National Tax and Customs, Border Office Naidaş (in short: Tax and Customs Control)	E-mail: <a href="mailto:vamanaidas@customs.ro">vamanaidas@customs.ro</a>	00.00 – 24.00 all week
Public Health's Service of the Government Office of Caraş Severin County (in short: Health Control) Moldova Veche Town Hospital	Phone: +40 255540847	08.00 – 20.00 on weekdays
Disaster Management (in case of dangerous goods transport)	Phone: +40 255541113 Fax: +40 255541260	00.00 – 24.00 all week
National Sanitary Veterinary and Food Safety Authority Directorate of the Caraş Severin County (in short: Phytosanitary Control)	Phone: +40 255231004 Fax: +40 255230041	08.00 – 20.00 on weekdays

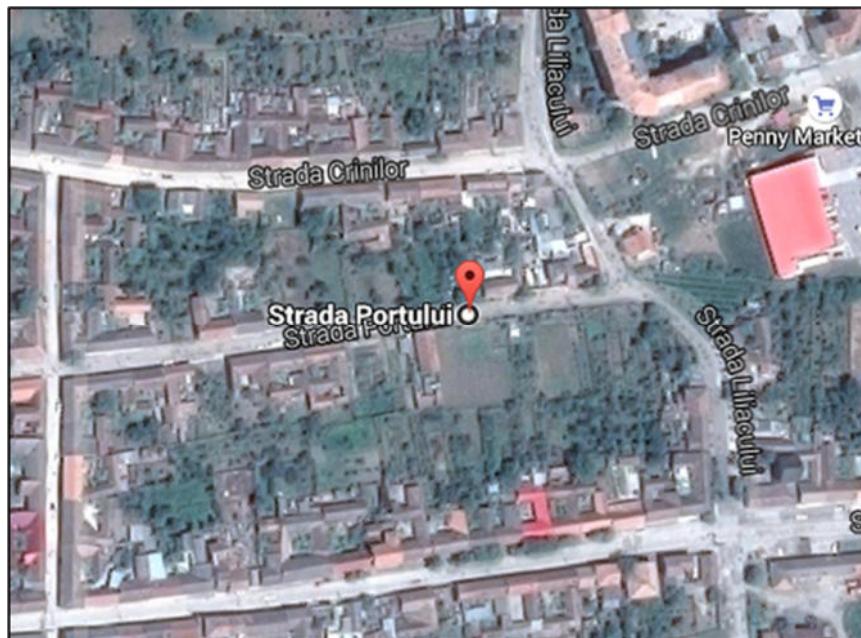

**Place of checks:**

In national waters the border checks are carried out on board of the ships, near the border crossing point or in an area for control located near the ship.

Coordinates:

$\varphi = 44.7230921$   
 $\lambda = 21.6220514$

**Additional information:**

The border control point functions as a part of the Border Police Sector Moldova Veche and is located on the left river bank. The controls assure the respecting of the provisions of the treaties and agreements, the conventions and the border protocols, signed with Serbia and the international ones concerning the transit of people and merchandise across the border with Serbia.

## 8.2.2. Orşova

**Location on the Danube/River-km:** 954.70 – 953.50

**Postal address:** Orşova Town, Tufari Street No. 2, County of Mehedinți

**Characteristics:** Joint controls by all relevant authorities at designated spots in the river

**Mean duration of checks (including waiting time):** 90 minutes

### Involved control authorities:

Involved control authorities	Contact data	Opening hours

## 9. Bulgaria

### 9.1 General information on border controls

Figure 12: Overview of control points in Bulgaria; base map: ©Esri, adapted by viadonau

### 9.1.1. Control process

<b>Step 1</b>	All vessels equipped with AIS transponder are monitored through the River Information System (BULRIS, <a href="http://vtt.bulris.bg/gui/en/login">http://vtt.bulris.bg/gui/en/login</a> ). Harbour Master, Border Police, Tax and Customs Control and the Port Authority (which facilitates port infrastructure and collects port fees) have access to this information system.  More information about the BULRIS-system can be found under the following link: <a href="http://www.bulris.bg/en/project-bulris/access-to-bulris">http://www.bulris.bg/en/project-bulris/access-to-bulris</a>
<b>Step 2</b>	Before visiting a Bulgarian Port the ship manager, the captain of the ship or the ship agent shall send a Notification (“Request for incoming border control”), using the System for Electronic Processing of Documents in Bulgarian River Ports (Single Window, <a href="https://sw.bulris.bg/en">https://sw.bulris.bg/en</a> ), with crew list, passenger list and dangerous goods manifest, attached to it.  The Notification (generated by the system) shall include the following information: <ul style="list-style-type: none"><li>- Ship information: name of ship; European Number of Identification (ENI); type of ship (cargo, passenger etc.); flag state; ship owner; port of embarkation; port of disembarkation</li><li>- Estimated Time of Arrival (ETA) in port;</li><li>- Brief description of cargo: gross weight of cargo (in tons); type and identification number of transport documents accompanying the shipment of goods; number of customs document accompanying the shipment of goods</li><li>- Type of requested border control (incoming / outgoing);</li><li>- Economic Operator Registration and Identification (EORI) number of ship agent;</li><li>- Information regarding every non self-propelled vessels within the convoy: type of vessel, name and European Number of Identification (ENI) of vessel, brief description of cargo, gross weight of cargo (in tons), port of embarkation and disembarkation, incoming border control or transiting, its location during border control</li><li>- Name of person sending the notification</li></ul>
<b>Step 3</b>	The deadline for submission of Notification is at least 24 hours before the arrival at the port or at the time of departure from the previous port, but this is in case when the travel time between the two ports is shorter than 24 hours, but not later than 2 hours before arrival.
<b>Step 4</b>	Upon arrival at any Bulgarian port the following documents should be sent using the System for Electronic Processing of Documents in Bulgarian River Ports (Single Window, <a href="https://sw.bulris.bg/en">https://sw.bulris.bg/en</a> ) <ul style="list-style-type: none"><li>- General Declaration (form 5) – the document is automatically generated by the system</li><li>- Cargo Declaration, Bill of Lading, Cargo Manifest, etc.</li><li>- Ship Stores Declaration (form 6)</li><li>- Crew's Effects Declaration (form 7)</li><li>- Declaration for the absence of stowaways, arms and ammunitions, drugs and other items, prohibited or limited for possession, as well as animals - NIL list (form 8)</li></ul>

	<ul style="list-style-type: none"> <li>- Information regarding type and quantity of waste – as a result of shipping activities, and the residue of ship cargo (form 9) – not requested for fishing boats and pleasure boats with a maximum capacity of 12 persons.</li> </ul>
<b>Step 5</b>	All competent border control authorities begin preliminary, indoor checks, which generally end up before the vessel's arrival at the port.
<b>Step 6</b>	A mixed team out of representatives of the Border Police as well as Tax & Customs Control (if required Bulgarian Food Safety Agency and the relevant Regional Inspectorate for Protection and Control of Public Health) carry out on-board control: <ul style="list-style-type: none"> <li>- Border Police checks crew documents, ship logbook and the premises for hidden persons</li> <li>- Tax and Customs Control carries out checks on cargo and the premises of the vessel</li> </ul>
<b>Step 7</b>	After the on-board inspection was carried out, in case of absence of any violations and prohibitions the crew can get down into the port and the cargo is released. It is possible to carry out the cargo handling in a place other than the place of border control.
<b>Step 8</b>	On departure a Notification ("Request for outgoing border control") has to be submitted - via the System for Electronic Processing of Documents in Bulgarian River Ports (Single Window, <a href="https://sw.bulris.bg/en">https://sw.bulris.bg/en</a> ) - to the competent authorities executing border control. It is admissible to send the notification for departure together with the notification for arrival in port.

The notification of the competent controlling authorities for incoming or outgoing of ships in Bulgarian Ports on the Danube River is carried out through user accounts to the Information system *Single Window* (<https://sw.bulris.bg/en>).

In case when an accident during a stay in one of the Bulgarian Ports occurs, small ships and yachts, for which a preliminary notification is not demanded, the Captain of the respective vessel must get into contact with the BULRIS Operational Centre (phone: +35982298460, +359878435524; e-mail: [operators@bulris.bg](mailto:operators@bulris.bg)) for granting a permission to use the wharf and upon request the Captain could gain a temporary user account to the Information system *Single Window*.

### 9.1.2. Control forms

#### Form 1: DAVID Arrival & Departure Report (available language(s): BG, EN)

<i>Danube Navigation Standard Form (DAVID)</i> <i>Стандартен формулар за корабоплаване по река Дунав (DAVID)</i> <b>ARRIVAL AND DEPARTURE REPORT</b> <b>ДОКЛАД ЗА ПРИСТИГАНЕ И ОТПЛАВАНЕ</b>		
	Arrival Пристигане	Departure Отплаване
1.1 Name and type of ship (main vessel) including previous name(s) of ship – if applicable 1.1 Име и вид на кораба (основен съд) включително предишни ими (имена) на кораба – ако е приложимо	1.2 Ship number/EIN-European Number of Identification (main vessel) 1.2 Номер на кораба/УЕИН – Уникатен европейски идентификационен номер (основен съд)	
1.3 MMSI number - if applicable 1.3 MMSI номер – ако е приложимо	1.4 Vessel certificate valid until (main vessel) 1.4 Корабното удостоверение е валидно до (основен съд)	
2. Port of arrival/departure 2. Пристанище на пристигане/отплаване	3. Date and time of arrival/departure 3. Дата и час на пристигане/отплаване	
4. Nationality of ship (country/area of registration) including previous nationality of ship – if applicable 4. Националност на кораба (страна/область на регистрация) включително предишна националност – ако е приложимо	5. Name of master 5. Име на капитана	6. Control point/border crossing point 6. Място на контрол/Границен контролно-пропускателен пункт
7. Total length [m]/Total width [m] 7. Обща дължина [м]/Обща ширина [м]	8. Name and contact details of ship operator 8. Име и данни за контакт на корабния оператор	
9. Actual draught [m] 9. Действително газене [м]	10. Maximum tonnage [t]/Total quantity of cargo [t] 10. Максимална товаронесемност [т]/Общо количество на товари [т]	
11. Position of the ship in the port (berth or station) – if applicable 11. Място на кораба в пристанишето (стоянка, кей, терминал) – ако е приложимо		
12. Brief particulars of voyage (previous and subsequent ports; underline where cargo will be discharged) 12. Кратко описание на пътуването (предишни и следващи пристанища; подчертайте къде ще бъде разговарен товара)		
13. Brief description of the cargo 13. Кратко описание на товара		
14. EORI-Economic Operators' Registration and Identification – if applicable 14. EORI: Регистрация и идентификация на икономически оператор – ако е приложимо	15. Number of crew 15. Брой членове на екипажа	18. Remarks 18. Забележки
16. Navigation mode (A1, A2, B) – if applicable 16. Навигационен режим (A1, A2, B) – ако е приложимо	17. Number of passengers - if applicable 17. Брой пътници – ако е приложимо	
<i>Attached documents – if applicable (indicate number of copies)</i> <i>Приложени документи – ако е приложимо (посочете брой копии)</i>		
19. Cargo Declaration 19. Декларация за товара	20. Ship's Stores Declaration 20. Декларация за корабните провизии	
21. Crew List	22. Passenger List	

21. Списък на екипажа	22. Списък на пътници	23. The ship's requirements in terms of waste and residue reception facilities
24. Crew's Effects Declaration (only on arrival)	25. Declaration of Health (only on arrival)	23. Изисвания на кораба по отношение на отпадъците и приемните съоръжения за тях
24. Декларация за вещите на екипажа (само при пристигане)	25. Здравна декларация (само при пристигане)	
26. Date and signature by master, authorized agent or officer		26. Дати и подпис на капитана, уполномочен агент или офицер

*Danube Navigation Standard Form (DAVID)*

27. Convey information (to be filled out for pushed and coupled convoys only):  
 27. Информация за състава (погълна се само за гласови и привлечени състави)

Vessel data / Данини за кораба					Cargo data / Данини за товара		
Name and type of vessel including previous name(s) of ship - if applicable Име и вид на кораба включително предишно име (имета) на кораба – ако е приложимо	Ship number/ ENI Номер на кораб / УЕИН	Vessel certificate valid until Корабско удостоверение валидно док:	Port of arrival Приемателен пристанище	Port of departure Отправна за пристанище	Maximum tonnage [t] Максимална товароподемност [t]	Type of cargo Вид на товара	Quantity of cargo [t] Количество на товара [t]

### *9.1.3. Additional information*

#### **Length of the Bulgarian section of the Danube River**

The Bulgarian section of the Danube starts at river-km 845.65 (the mouth of the river Timok) and ends at river-km 374.10 (the city of Silistra) comprising a total length of 472 kilometres. The whole section represents the river border between Bulgaria and Romania. According to the Convention and the Protocol for determination of the state border the border line is the midstream of the river. Depending on the geographical features and characteristics, waters and islands are a territorial belonging to one of the two countries. Traffic regulations for passing through the section are specified by the “*Convention regarding the regime of navigation on the Danube River*”, signed at Belgrade, on 18 August 1948. Vessels navigating on the joint Bulgarian-Romanian section are not considered to have entered neither the territory of Bulgaria, nor the territory of Romania.

#### **Mean duration of complex on-board border control (including waiting time)**

Average duration of complex border inspections carried out by national competent authorities concerning EU vessels takes up to 30 minutes and controls of vessels from a third country take up to 60 minutes.

The type of the border check (its volume and scope) depends on the risk assessment related to international and national security, based on the received preliminary information form the ship provides 24 hours before the check (not less than 2 hours before the arrival of the ship). In cases when the preliminary information delivered by the vessel owner is insufficient a thorough border check is carried out.

Vessels transporting dangerous goods are thoroughly checked.

#### **Characteristics of controls performed**

Preliminary checks carried out by all competent border control authorities and joint inspection on-board.

In cases of emergency - ships wreck, accidents, disasters, compelling need to provide emergency assistance to persons on board, as well in cases of inability to use the port with BCCP for public transport due to lack of adequate port equipment, the on-board border control can be exceptionally carried out in additional ports not described in this manual. In such cases the procedure is indicated by the Harbour Master.

If cases when the vessel is a small passenger / tourist yacht, which does not have a ship manager and shipping agent, the request for border control can be done immediately upon the arrival at the port, and it shall be presented to the harbor master (BULRIS operator), who has the obligation to inform all the other competent authorities executing the border control.

#### **Usage of information systems**

The Bulgarian Port Infrastructure Company has set the *System for electronic processing of documents* on arrival and departure of vessels to and from Bulgarian river ports into operation by March 2017 (“Single Window”, <https://sw.bulris.bg/en>). A software owned by BPI Co., which is used on sea and was adapted to the requirements on river, serves as a basis of the new system.

The system "Single Window" or "one stop shop" enables standardized information and documents to be submitted electronically rather than on paper in a single entry point.

The *System for electronic processing of shipping documents* upon arrival and departure of ships in Bulgarian ports on the Danube is designed to fulfil the essential requirements of Directive 2010/65/EU of the European Parliament and the Council of 20 October 2010 on reporting formalities from ships arriving in and/or departing from ports of the Member States to introduce standard forms for submission

of information from the ships on arrival in and/ or departure from the ports of Member States of the Community, which aims to simplify and facilitate the administrative procedures for ships arriving and/or leaving European ports.

## 9.2 Information on specific border control points

Vessels navigating on the Danube River enter and exit the territory of Bulgaria, only after border control, carried out at any of the following Border Crossings Check-points (BCCP):

### 9.2.1. Vidin

**Location on the Danube/River-km:** 795.00 – 781.50

**Postal address:** 3700 Vidin, 1 Dunavska str., Bulgaria

**Characteristics:** Preliminary checks carried out by all competent border control authorities and if necessary joint inspection on-board.

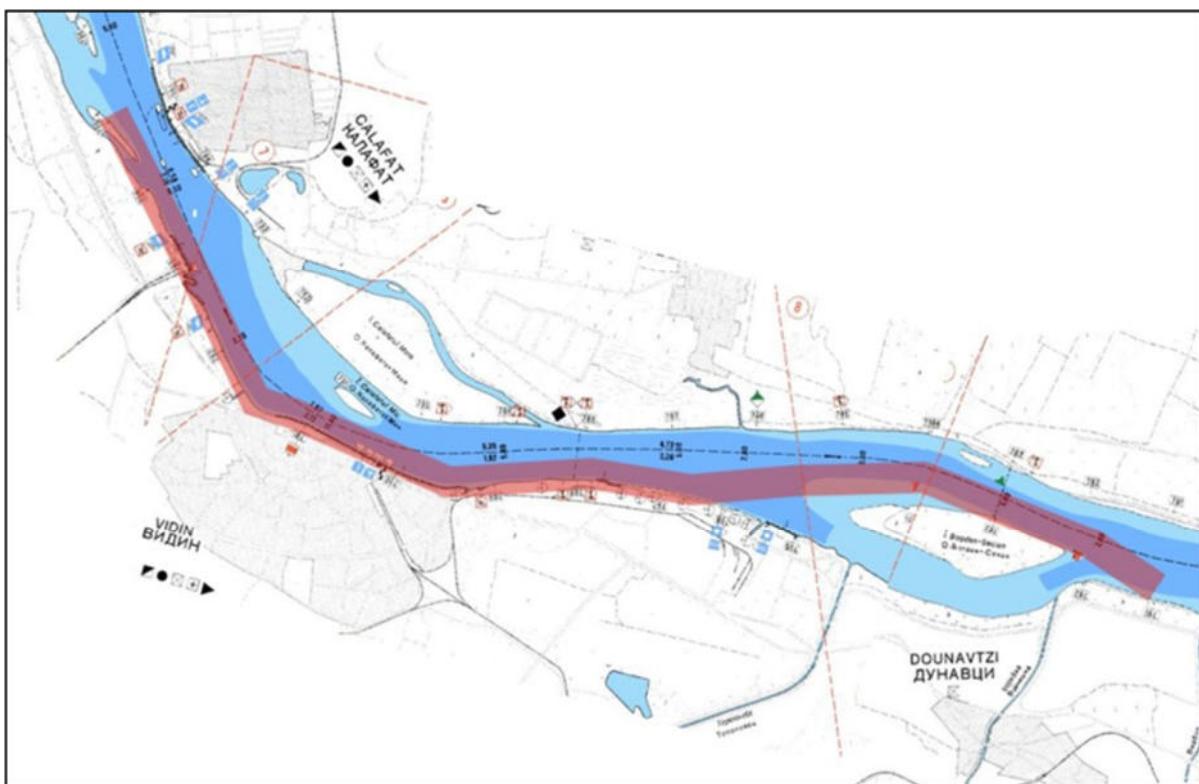

**Mean duration of checks (including waiting time):** 30 - 110 minutes

**Place of checks:**

**Additional information:**

At the Port of Vidin passengers, general cargo, bulk cargo, non-hazardous liquid cargo and ship bunkering/supply is handled. There are 3 wharves, ferry rail, road ferry and Ro-Ro terminals, a total number of 9 pontoons to stay / supply ships and 4 separate berths.

The duration of border controls depends on the type of the vessel, the last port of call (EU or third country), climatic conditions and the number of vessels that have declared a request for border control. Priority checks are carried out to passenger ships, cargo ships transporting dangerous goods, live animals and perishable goods.

In the port area both large and small passenger as well as cargo vessels can be checked. When the control of a vessel with several sections is carried out, those vessels shall wait docked at a berth in the Danube river, until the pusher lays in front of the place where border control will be executed. After checking the relevant documentation, representatives of national competent authorities executing the border control go on board for inspection, if necessary.

As required special places for control on dangerous goods are located outside the city, respectively on river-km 793.60 and on river-km 788.10.

## 9.2.2. Lom

**Location on the Danube/River-km:** 747.50 – 736.80

**Postal address:** 3600 Lom, 21 Pristanishtna str., Bulgaria

**Characteristics:** Complex on-board border control carried out by the national competent authorities (placed in one building)

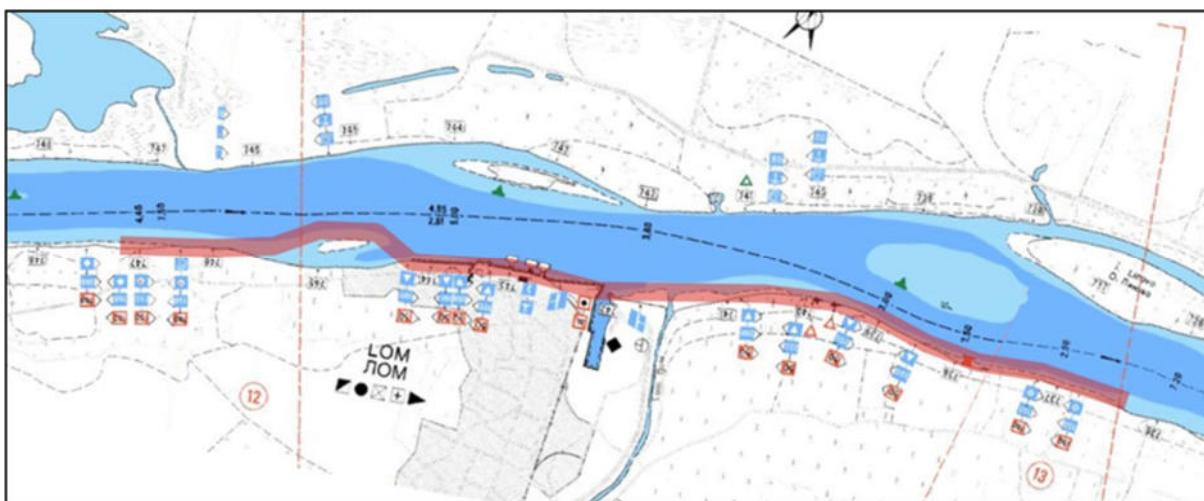

**Mean duration of checks (including waiting time):** 30 - 90 minutes

**Place of checks:**

**Additional information:**

In Ruse all types of cargo vessels and passenger vessels are processed including petroleum products, as well ship bunkering. At present The Port of Ruse is the only, of all Bulgarian ports along the Danube, defined as a point of import and export of petroleum products. Following ports and transhipment sites are located in Ruse:

- "Ruse service" with 1 berth for a total number of 4 vessels;
- "Ruse-West" with 6 berths at internal and external wharves;
- Ruse Shipyard": port for special purposes, with internal water basin;
- "Ruse center" with 3 berths;
- "Pristis" with 12 berths for a total number of 43 vessels;

- Port for special purposes "Executive Agency for Exploration and Maintenance of the Danube River" with internal water basin, entrance on river-km 491.00 designated for winter shelter;
- "Ruse-East" with 14 berths;
- "Danube dredging fleet" with 3 berths on an external wharf and internal water basin;

- "Wco" with 1 berth;
- "Ruse-free zone" with 1 berth;
- "Port Bulmarket Ruse" with 7 berths;
- "Ruse bunkering terminal Arbis" with 1 berth, designed for processing petroleum products.

There is also a ship owner with 10 berths.

The harbour master has approved a special regime for navigating, handling and stay in the water area from river-km 489.20 to river-km 491.20.

The duration of border controls depends on the type of the vessel, the last port of call, climatic conditions and the number of vessels that have declared a request for border control. Priority checks are carried out for passenger ships, cargo ships transporting dangerous goods, live animals and perishable goods. In the port area both large and small passenger as well as cargo vessels can be checked. Checks of ships without crew are performed if needed. If required, places of checks for oil and dangerous goods (mentioned above), are located outside the city on a destination in travel time with service car (20 to 45 minutes), depending on weather conditions.

**Place of checks:**

**Additional information:**

At the Port of Silistra passengers, general cargo and bulk cargo as well as non-hazardous liquid cargo are handled. Ship bunkering / supply is offered.

There are some detached ports, as follows:

- "Ferry-boat complex Siliстра" for control on Ro-Ro ships;
- "Siliстра-Lesil" with 5 embankments and external wharf;
- "Siliстра Polaris-8" with 3 berths;
- "East Point" with 1 embankment for passenger ships, small vessels and pleasure boats;
- "Siliстра" with 3 embankments for a total number of 6 vessels. There is a shipping owner with 4 berths.

The duration of border controls depends on the type of the vessel, the last port of call, climatic conditions and the number of vessels that have declared a request for border control. Priority checks are carried out for passenger ships, cargo ships transporting dangerous goods, live animals and perishable goods. In the port area large and small cargo ships can be checked.

**all competent authorities involved in border control may also be reached by BULRIS Operational Centre:**

## 10. Moldova

### 10.1 General information on border controls

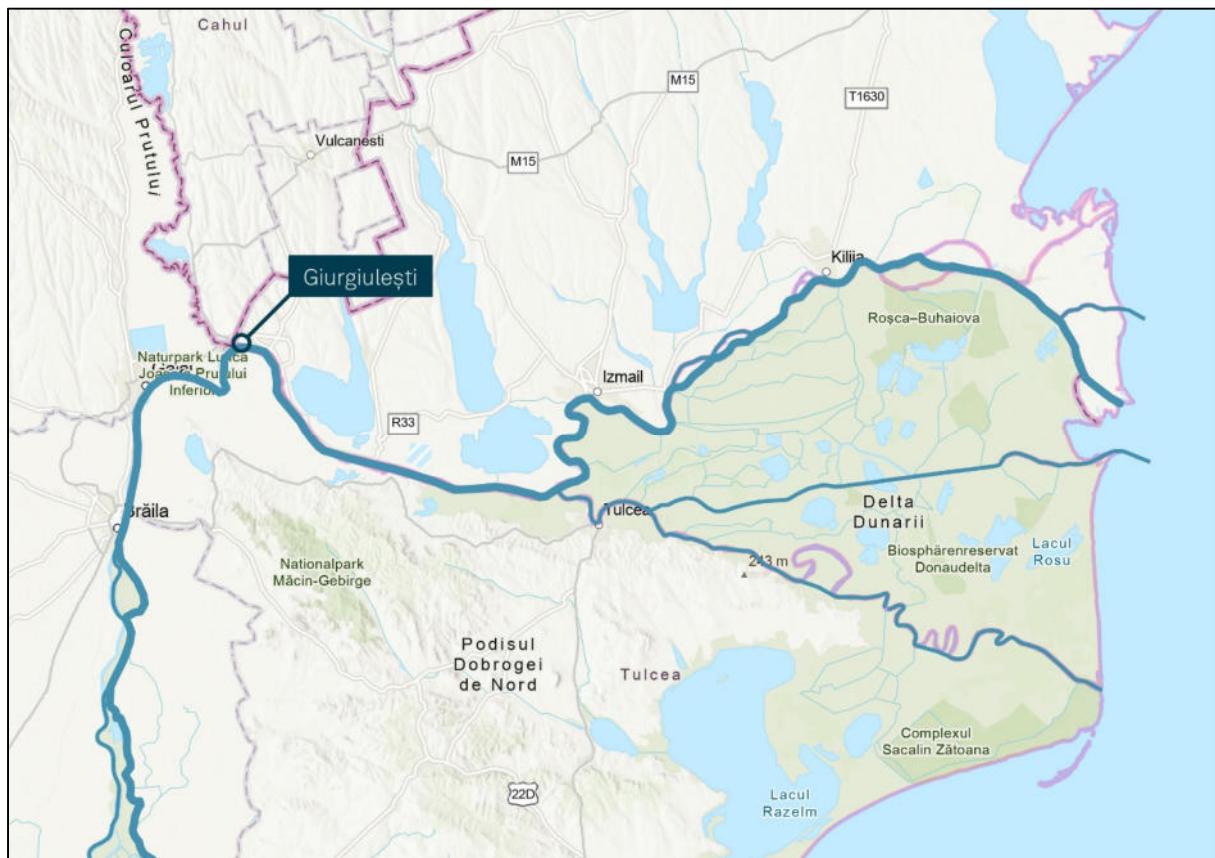

Figure 15: Overview of control points in Moldova; base map: ©Esri, adapted by viadonau

#### *10.1.1. Control process*

<b>Step 1</b>	Shipowner/Operator/Master of the vessel or Port Agent notifies the authorities (Naval Agency, Border Police and Custom Service) about the intention for calling Giurgiulesti Port, upon departure from the previous port and 72, 48, 24 and 4 hours before the call of port Giurgiulesti, which contains: a) name of the ship; b) the ship's arrival date; c) information about the transported goods.
<b>Step 2</b>	Shipowner/Operator/Master of the vessel or Port Agent send a notice with the attachment of the documents/certificates (scanned) by e-mail to the national authorities (Naval Agency, Border Police and Custom Service), 24 hours before the ship's entry into the national port of call, or at the latest at the time of the ship's departure from the previous port, if the duration of the voyage of the ship that will call at the national port of call is less than 24 hours.
<b>Step 3</b>	The Master of the vessel establishes VHF connection with the Harbor Master using the channel "14" or international channel "16" and waits for further indications.
<b>Step 4</b>	Pilot and tug assistance is mandatory for all maritime vessels and cargo inland navigation vessels for calling the Port Complex Giurgiulesti. Vessel is provided by continuous surveillance by Port traffic surveillance service. After receiving permission to enter the port, the vessel berths at the indicated quay.
<b>Step 5</b>	Port Control Commission will get on board the vessel for documentation purposes and control by its authority's competencies, upon its berthing to quay. The commission consists of the Naval Agency, Border Police, Customs Service and Port Agent (in additional cases and other authorities according to its competence).
<b>Step 6</b>	Master of the vessel will present the required documents and access to all compartments of the vessel for inspection by the members of the commission according to the competences, cargo inspection and crew members.
<b>Step 7</b>	After control procedures, the Port control commission descends from the vessel and permits the competent organizations (customs broker, maintenance services, etc.) to carry on supplement procedures that are necessary or requested by the Master of the vessel.

#### *10.1.2. Control forms*

Documents that can be requested during the control processes by the different control authorities:

<b>Border Control</b>	<ul style="list-style-type: none"><li>- Crew member (passengers) passports;</li><li>- Last 10 ports list;</li><li>- Ship plan.</li></ul> <p style="text-align: center;">+</p> <p>Fulfilled declarations according to Convention on Facilitation of International Maritime Traffic (FAL Convention)</p>
<b>Tax and Customs Control</b>	<ul style="list-style-type: none"><li>- Cargo (goods) accompanying documents;</li><li>- Passengers customs declarations;</li><li>- Cargo plan;</li><li>- Ship plan;</li><li>- Last 10 ports list.</li></ul> <p style="text-align: center;">+</p> <p>Fulfilled declarations according to Convention on Facilitation of International Maritime Traffic (FAL Convention)</p>
<b>Port Captain Service</b>	<p><b>For inland navigation vessels (Danube river),</b> the following valid documents/certificates are presented, in one of the working languages of the Danube Commission (according to the Convention regarding the regime of Navigation on the Danube) or in English:</p> <ul style="list-style-type: none"><li>a) nationality certificate;</li><li>b) the certificate of good seaworthiness / the community technical certificate of inland waterway navigation;</li><li>c) the tonnage certificate (for vessels whose technical condition is supervised by the classification societies);</li><li>d) crew list;</li><li>e) the European certificate regarding International Carriage of Dangerous Goods by Inland Waterways (ADN) (for vessels transporting dangerous goods);</li><li>f) the certificate confirming knowledge of the International Rules for the carriage of dangerous goods provided for in chapter 8.2 of the European certificate for the International Carriage of Dangerous Goods by Inland Waterways (at least one of the crew members);</li><li>g) insurance policy (for ships transporting dangerous goods);</li><li>h) Master certificate of competency, with the right of navigation in zone 3, including the international maritime sectors of the Danube River;</li><li>i) radio station license, the radio-telegraphic log;</li><li>j) the manifest document;</li><li>k) bill of lading.</li></ul> <p><b>For maritime vessels and river-sea vessels,</b> the following valid documents, in English, are presented:</p> <ul style="list-style-type: none"><li>a) registration certificates (nationality certificate, ship ownership certificate);</li><li>b) statutory certificates: Certificate of good seaworthiness, class certificate, tonnage certificate (for ships whose technical condition is supervised by classification societies), load line certificate;</li><li>c) minimum safe manning certificate;</li><li>d) crew list;</li><li>e) list of passengers on board;</li><li>f) passenger certificate, if the ship carries more than 12 passengers;</li><li>g) log book;</li><li>h) engine record book;</li><li>i) medical certificates;</li><li>j) radio station license, the radio-telegraphic log;</li></ul>

## 10.2 Information on specific border control points

### 10.2.1. Giurgiuleşti

**Location on the Danube/River-km:** 133.80

**Postal address:** MD-5318

**Characteristics:** Joint controls by all relevant authorities.

**Mean duration of checks (including waiting time):** 60 – 120 minutes

**Involved control authorities:**

Involved control authorities	Contact data	Opening hours
Border Police Sector Giurgiuleşti-2 (in short: Border Police)	Phone: +373 79702116 E-Mail: scf.giurgiulesti-galati@border.gov.md	00.00 – 24.00 all week
Naval Agency of the Republic of Moldova (NARM)	Phone: +373 29968699	00.00 – 24.00 all week
Customs Service Post (in short: Tax and Customs Control)	Phone: +373 29968385 +373 29968474	00.00 – 24.00 all week
State Supervision Service of Public Health (in short: Health Control)	Phone: +373 29922434	08.00 – 17.00 on weekdays
Veterinary and phytosanitary control post "Giurgiuleşti" of the National Agency for Food Safety (in short: Phytosanitary Control)	Phone: +373 29968036 Phone: +373 29968388	00.00 – 24.00 all week
ICS Danube Logistics Operator of Giurgiuleşti International Free Port	Phone: +373 (299) 68 599 Fax: +373 (299) 68 237	0.00 – 24.00 all week
SE Port Fluvial Ungheni Operator of Passenger and Goods Port Giurgiuleşti	Phone: +373 (236) 33 275	0.00 – 24.00 all week

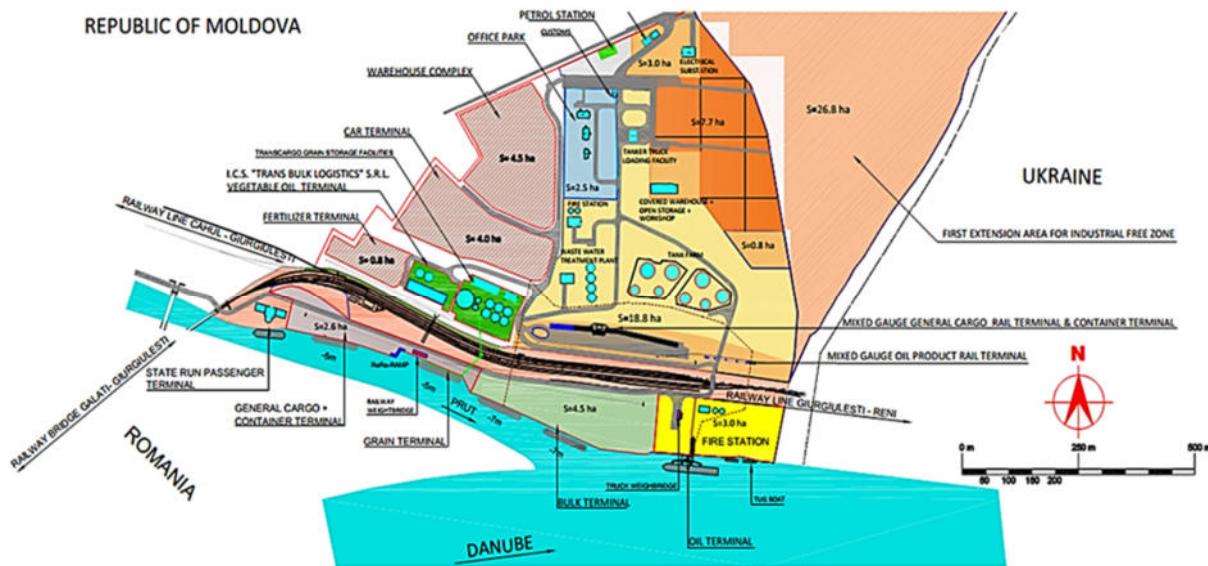

**Place of checks:**

Giurgiuleşti is the only port complex of the Republic of Moldova with access to the open sea. It is located in the country's utmost South, at the border triangle of Romania, Ukraine and Moldova on Moldova's 430 m of Danube banks where the Prut river flows into the Danube river and 770 m on Prut river. Hence the port opens the nation's only access to the Black Sea around 133 km downstream. The complex is composed of a public site which is managed by **State Enterprise “Port Fluvial Ungheni”** (Passenger and Goods State Port) focusing on passenger and general cargo and of a private site (Giurgiuleşti International Free Port) which is managed by the company **ICS Danube Logistics**, focusing on handling of commercial cargo. At approximately mile

71.50 a port pilot will board the vessel and tug boats will assist the vessel during its final approach to Port Complex Giurgulesti. Prior to the final approach to Port Complex Giurgulesti, the master of the vessel must seek the permission of Giurgulesti Harbor Master on Channel 16.

#### **Additional information:**

Passenger and Goods State Port Giurgulesti entire territory is formed by 0.5 ha area, with the administrative building of the national control authorities. The state port is the only one passenger terminal, with a double destination for transport of general goods, formed by an one quay of 128 meters. The state port is capable of receiving both inland and sea-going vessels with available water depths of up to 4.50 m.

Giurguleşti International Free Ports' (GIFP) entire territory has a status of a free economic zone until 2030. Due to its location on the Lower Danube with available water depths of up to 7.00 m, GIFP is capable of receiving both inland and sea-going vessels. GIFP is composed by 8 terminals (container/general cargo, oil, vegetable oil, grain, bulk cargo and ro/ro). The port consists of 120 ha area.

Border police officer can authorize seamen, holding an ID issued in line with the ILO Convention nr.185 (revised) on the Seafarers' Identity Documents, ratified by MD Parliament through the Law nr.31-XVI of February 23 2006, „ILO Convention nr.108 a on the Seafarers' Identity Documents”, signed in Geneva on May 13, 1958, ratified through Parliament's Decision nr.600-XIV of September 13, 1999, Convention on Facilitation of International Maritime Traffic, signed in London on April 9, 1965 and with the provisions of the effective legislation, the entry to the territory of the Republic of Moldova and the movement ashore in the area of the port where their ships call or in the neighbouring localities of the port without presenting themselves at a BCP, provided that their names are entered into the list of vessel's crew that was preliminarily presented for control to the Border Police.

Based on the risk analysis results related to national security and fight of illegal migration, the seamen can be subject of a border control, prior to going ashore. If the seaman constitutes risks for the national security, public order and health, the going ashore can be banned for him.

The seamen that intend to remain in other localities than the ones neighboring the port should pass the border control according to general rules. The ship's captain or shipping agent shall immediately inform the Border Police about any changes to the composition of the crew or the number of passengers.

The duration of the vessel's idle time (including control procedures) depends on type of vessel and cargo inside.

## 11. Ukraine

### 11.1 General information on border controls

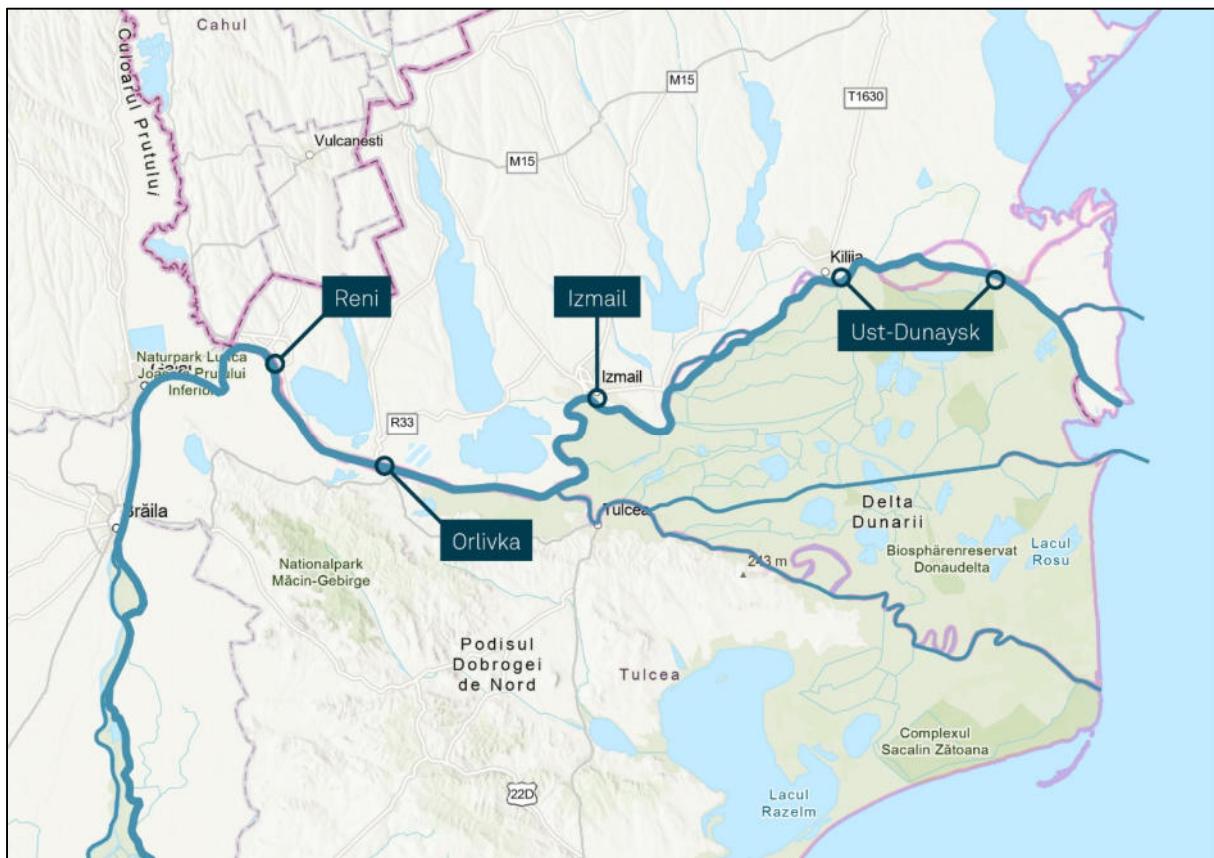

Figure 16: Overview of control points in Ukraine; base map: ©Esri, adapted by viadonau

#### 11.1.1. Control process

<b>Step 1</b>	The master of a ship or a marine agent shall provide information to the controlling authorities on the arrival of the vessel at the checkpoint through the port information system not later than a day before arrival.
<b>Step 2</b>	The controlling authorities make decisions regarding the place and scope of control: documentary control or control on board the vessel.
<b>Step 3</b>	The vessel stays at the specified berth/dock. Pilotage of naval vessels, as well as river-sea vessels is obligatory. Self-propelled river vessels are exempted from compulsory pilotage in case skipper/ship master is on board.
<b>Step 4</b>	The controlling authorities check the documents provided by the master of the vessel, carry out the necessary formalities within the limits of their competence, as a rule, within three hours and without delay of cargo operations.
<b>Step 5</b>	Upon completion of the ship's control, the work permit is granted.

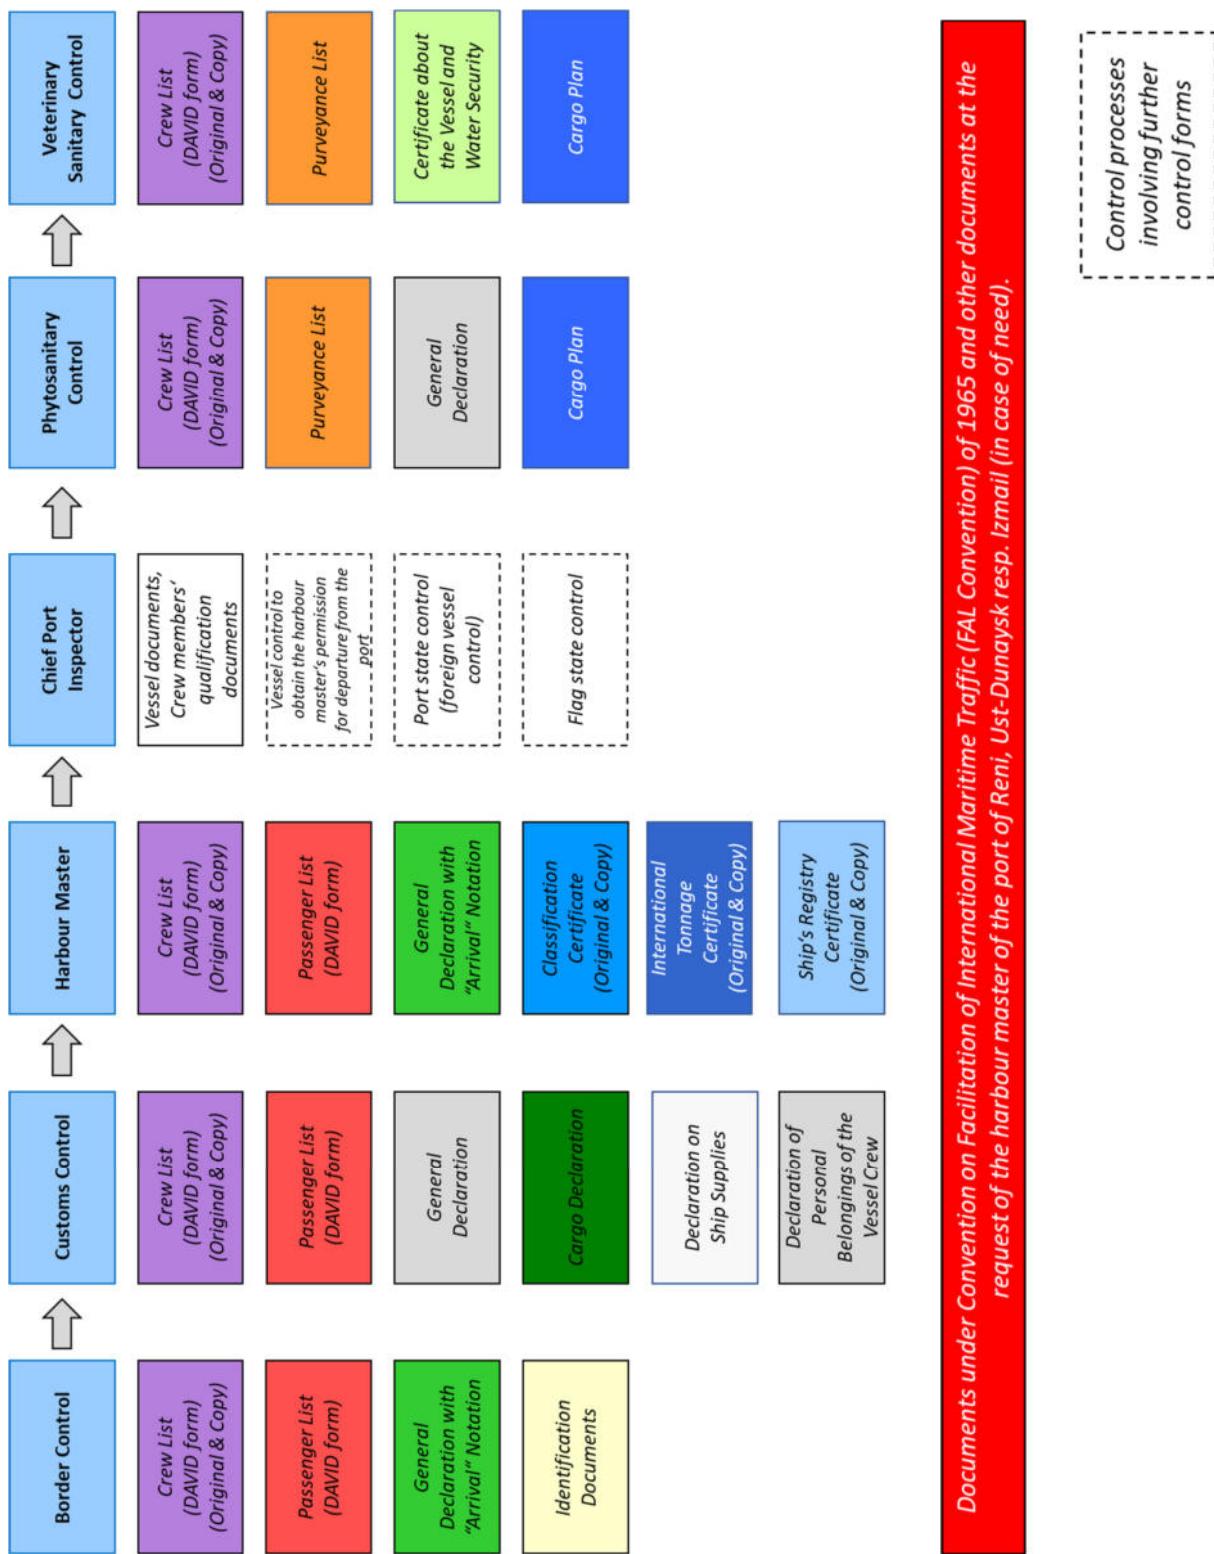

Figure 17: Overview of the control procedure in Ukraine

### 11.1.2. Control forms

<b>Border control</b>	<ul style="list-style-type: none"> <li>- Ship list (crew list);</li> <li>- Passenger list;</li> </ul> <p><b>and</b></p> <p>Documents under Convention on Facilitation of International Maritime Traffic (FAL Convention) of 1965.</p>
<b>Customs control – Entry summary declaration</b>	<ul style="list-style-type: none"> <li>- General declaration with information about the name and description of the ship, details of its registration and nationality, captain's surname, name and address of the ship agent;</li> <li>- Cargo declaration;</li> <li>- Declaration on ship supplies;</li> <li>- Declaration of personal belongings of the crew of the vessel;</li> <li>- Ship list (crew list);</li> <li>- Passenger list;</li> <li>- Document, which accompanies the international postal items (if any), is determined by the acts of the Universal Postal Union;</li> <li>- Transport documents for goods (if available);</li> <li>- Commercial documents (if any) for goods and information about placing goods on board;</li> <li>- Information on the presence (absence) of goods on board the vessel, the import of which into the customs territory of Ukraine is prohibited or restricted, including currency values of crew members, drugs containing narcotic, potent drugs, psychotropic and toxic substances;</li> <li>- Information on the presence (absence) of dangerous goods, weapons and ammunition on board the vessel.</li> </ul>
<b>Sanitary and epidemiological control (medical and sanitary control)</b>	<p><i>In regard of amendments to the Ukrainian legislation, the following types of control will be introduced:</i></p> <ol style="list-style-type: none"> <li>1) <i>Phitosanitary control;</i></li> <li>2) <i>Veterinary and sanitary control;</i></li> <li>3) <i>State control on observance of the legislation on food products, feed, animal side products, health and welfare of animals, conducted in accordance with legislation of Ukraine</i></li> </ol> <ul style="list-style-type: none"> <li>- Maritime medical sanitary declaration, issued in accordance with Annex 2 to the Rules of Sanitary Protection of the Territory of Ukraine, approved by the Cabinet of Ministers of Ukraine from August 22, 2011, No. 893, on a passenger cruise ship, a gastroenteric letter is additionally given by the ship's doctor;</li> <li>- Maritime medical-sanitary declaration;</li> <li>- Ship list (crew list);</li> <li>- Passenger list;</li> <li>- List of preventive vaccinations of crew members;</li> <li>- General declaration;</li> <li>- Cargo declaration (including a cargo declaration for tankers, a cargo manifest with a list of goods for container vessels);</li> <li>- Copy of the ship's sanitary certificate</li> <li>- Information on the equipment of the ship by sea pollution prevention systems in accordance with the MARPOL 73/78 Convention (copies of ISPP certificates, IGPP);</li> <li>- Information on the toxicological and radiation safety of the cargo;</li> <li>- Information on the location of the fence and the number of isolated ballast.</li> </ul>

<b>Phytosanitary and veterinary control</b>	<i>List and examples of documents don't change.</i>	The documents are checked at the office premises. Documents required for documentary control shall be provided in advance by the master of the vessel (representative of the ship owner, marine agent) by downloading them in the Port State Information System or other means of communication. The documents are defined by the Convention on the Facilitation of International Maritime Traffic (FAL Convention) of 1965.
<b>Harbour master of the port</b>		The General Declaration with the notation "Arrival", Crew List, Passenger List, originals and copies of the following documents: <ul style="list-style-type: none"> <li>- Classification Certificate;</li> <li>- Ship's Registry Certificate;</li> <li>- International Tonnage Certificate;</li> <li>- International Load Line Certificate;</li> </ul> and other documents, at the request of the harbour master of the port of Reni, Ust-Dunaysk resp. Izmail, in case of need. - dangerous goods manifest
<b>The state service for maritime, inland waterway transport and shipping of Ukraine (Chief Port Inspector)</b>		Vessel documents and the crew members' qualification documents stipulated by international agreements in the sphere of safety and pollution prevention during one of the types of vessel control: vessel control to obtain the harbor master's permission for departure from the port; port state control (foreign vessel control); flag state control (Ukrainian vessel control by the Shipping Administration and the State Agency for Fisheries of Ukraine).

Control forms according to Convention on Facilitation of International Maritime Traffic (FAL Convention)

**Form 1: DAVID Arrival & Departure Report (available languages(s): UA, EN)**

**ЗВІТ ПРО ПРИХІД/ВИХІД  
ARRIVAL AND DEPARTURE REPORT  
Danube Navigation Standard Form (DAVID)**

	Приїзд Arrival	Виїзд Departure
1.1 Найменування та тип судна (основного судна), включаючи попередні назви судна (якщо це застосовано) Name and type of ship (main vessel) including previous name(s) of ship - if applicable	1.2 Номер судна / ENI-Європейський номер ідентифікації (основне судно) Ship number/ENI-European Number of Identification (main vessel)	
1.3 ММСІ номер - якщо це застосовано MMSI number - if applicable	1.4 Сертифікат судна дійсний до (основне судно) Vessel certificate valid until (main vessel)	
2. Порт приходу/виходу Port of arrival/departure	3. Дата та час приходу/виходу Date and time of arrival/departure	
4. Національна належність судна (країна / район реєстрації), включаючи попередню національну належність судна - якщо застосовано Nationality of ship (country/area of registration) including previous nationality of ship - if applicable	5. Прізвище, ім'я та по батькові капітана Name of master	6. Пункт контролю / пункт перетину кордону Control point/border crossing point

## 11.2 Information on specific border control points

### 11.2.1. Reni

**Location on the Danube:** from 66.70 to 69.30 miles (measured in miles because of marine area from Sulina to Braila port)

**Postal address:** 68802, Ukraine, Odessa region, Reni town, Dunaiska street, 188

**Characteristics:** international water traffic

**Mean duration of checks (including waiting time):** 60-120 minutes

**Websites:** <http://uspa.gov.ua>

<http://www.portreni.com.ua>

<https://customs.gov.ua>

<https://marad.gov.ua>

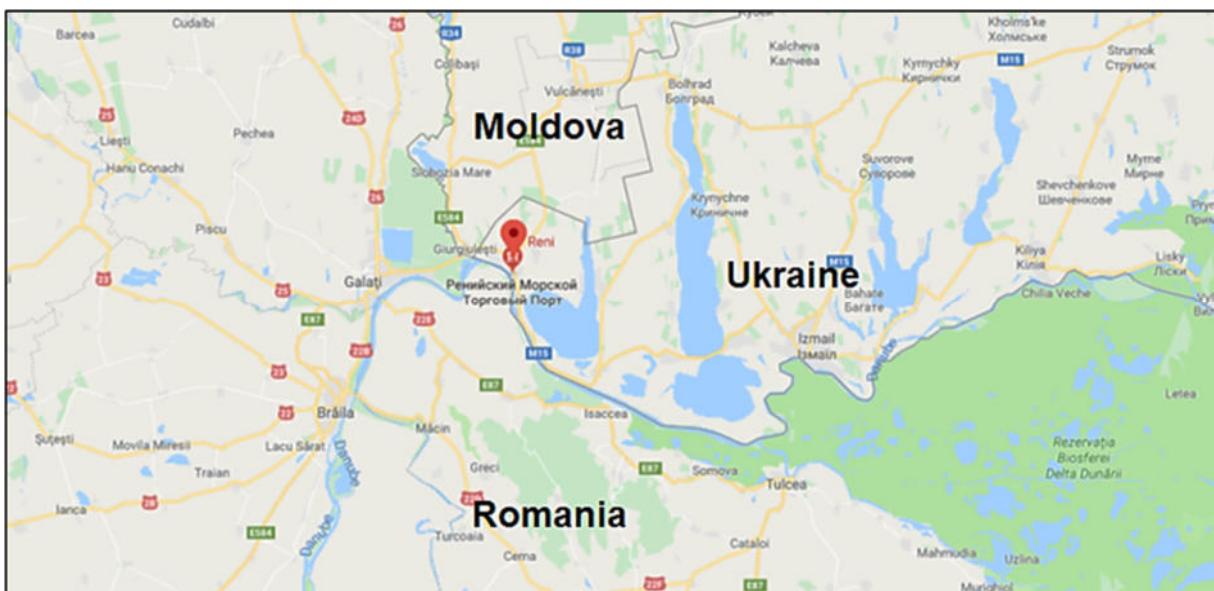

<https://dpsu.gov.ua>

#### Involved control authorities:

Involved control authorities	Contact data	Opening hours
Border Guard Service Unit «Reni»	Phone: +380 484041785	00.00 – 24.00 all week
Customs clearance sector of Izmail customs office of Odessa customs	Phone: +380 484042870	00.00 – 24.00 all week
Sanitary Quarantine Laboratory of the "Commercial Sea Port" Branch	Phone: +380 484042570	00.00 – 24.00 all week
Phyto Sanitary Control Sector of Commercial Sea Port of Reni	Phone: +380 484044312	00.00 – 24.00 all week
Veterinary Sanitary Control	Phone: +380 487531900	00.00 – 24.00 all week
Harbour Master Office	Phone: +380 958625980	00.00 – 24.00 all week
The state service for maritime, inland waterway transport and shipping of Ukraine (Chief Port Inspector)	Phone: +380 934854513	00.00 – 24.00 all week

**Place of checks:** Control is carried out on all berths and water areas of the port.

#### **Additional information:**

The area of the Reni seaport includes a fenced part of the coastal line on the left bank of the Danube River from 66.7 to 69.3 miles.

The water area of Reni seaport is the part of the Danube River at the left bank ranging from 62.5 to 71.0 miles, fenced by the nominal line of the state border. The upper border of the water area (71.0 miles) is situated within the area of the inflowing part of Prut River. On the water-side of the seaport, the Danube River forms a steep twist within the radius 3.5 – 4.0 km, closer to the 71.0 mile. The strait of the river is directed to the East, on the 67.0 mile (the Reni seaport scoop) – to the South.

The geographical coordinates of the seaport of Reni are situated on latitude 45°26' North and longitude 28°18' East. Navigation in the port lasts during the whole year. Connection with the Black Sea is provided by the Danube - Black Sea and the Sulina Canal.

website: <http://uspa-reni.com.ua>

## 11.2.2 Orlivka

**Location on the Danube/River-km:** from 57,9 to 55,1 (56) miles (measured in miles because of marine area from Sulina to Braila port) with the flow of the Danube river

**Postal address:** 68831, Ukraine, Odessa region, Izmail district, Reni community, village Orlivka, Poromna doroha, house 1

**Characteristics:** international water traffic and ferry movement according to the schedule

**Mean duration of checks (including waiting time):** 2-7 minutes pedestrians, cyclists; 2-10 minutes motorcyclists, cars; 15-30 minutes tourist buses, heavy trucks etc. (project estimated time)

**Places of checks:** Control is carried out at all berths and water areas of the port.

**Additional information:**

The territory of the Izmail sea port is located on the left bank of the Kilia mouth of the Danube River from 84.6 km to 85.6 km, from 90.0 km to 91.0 km, from 92.0 km to 94.0 km and deep into the coastal boundary of 500 m. Geographical coordinates of the Izmail seaport are: latitude - 45°20'00" North, longitude - 028°51'00" East.

The water area of the port includes the region of the Kilia mouth of the Danube River from 81.0 km to 97.0 km, ranging from the left bank to the state border line, which passes through the middle of the main navigation fairway of the Danube river, excluding districts from 86,122 km to 86,263 km, 700 m length and 40 m width from the left bank. The navigation fairway is defined by the width between the Isobath (depth contour) with depths of 3 and more meters.

The Izmail seaport can receive seagoing vessels of up to 150 m in length, 30 m in width, with a water draft of up to 7 m, which is limited to the passage depths of the Sulina Canal and the Bystre Canal on the Ukrainian part of the Danube river.

#### *11.2.4. Ust-Dunaysk*

**Location on the Danube/River-km:** 47.00 (Kilia), 18.00 (Vilkovo)

**Places of checks:** Control is carried out on all berths and water areas of the port.

**Additional information:**

The Ust-Dunaysk sea port is located on the southern shore of Zhebriyanovskaya Bay in the Danube River Delta (town Vilkove Odessa region) at an artificial land area. This harbour includes the port unit of Kilia and of Vilkove.

The seaport berth line is 0.15 km (1 berth) with a maximum depth of up to 6 m.

The seaport has no r/w connection. The port unit Vilkove has automobile routes linking.

Port position: Latitude 45°28'N, Longitude 29°42'E.

In winter NW-N-NE winds prevail. In summer NW winds prevail. Storm winds over 15 m/s most often occur in winter (up to 10 %).

Ice conditions occur only during severe winters, usually in the middle of December or the first half of January. Normally, the port gets free of ice in the second half of February or in early March.

The territory of Ust-Dunaysk port's covers 15 hectares, its water area totals 60 ha. The port's sea approach channel is 7 km long and leads to three anchorages for large tonnage ships where passable depths have been lost by present time. Another connecting channel, of 1.5 km longitude, leads from the port's harbour into the Prorva Channel.
